

Assessment Objectives (AOs)

The Assessment Objectives are common to AS and A Level. The assessment units will assess the following Assessment Objectives in the context of the content and skills set out in Section 3 (Subject Content) of the specification.

AO1: Knowledge and Understanding	Demonstrate knowledge and understanding of accounting principles, concepts and techniques.
AO2: Application	Select and apply knowledge and understanding of accounting principles, concepts and techniques to familiar and unfamiliar situations.
AO3: Analysis and Evaluation	Order, interpret and analyse accounting information in an appropriate format. Evaluate accounting information, taking into consideration internal and external factors to make reasoned judgements, decisions and recommendations, and assess alternative courses of action using an appropriate form and style of writing.
Quality of Written Communication (QWC)	In GCE specifications which require students to produce written material in English, students must: • ensure that text is legible and that spelling, punctuation and grammar are accurate so that meaning is clear • select and use a form and style of writing appropriate to purpose and to complex subject matter • organise information clearly and coherently, using specialist vocabulary when appropriate. In this specification, QWC will be assessed in all units. On each paper, two of the marks for prose answers will be allocated to 'quality of written communication', and two of the marks for numerical answers will be allocated to 'quality of presentation'. The sub questions concerned will be identified on the question papers.

Kemp, 2025-02-11 This edited collection analyses recent changes in the private rental housing market using case studies from the UK Europe Australia and the USA and assesses the initial impacts of the COVID 19 pandemic **From Coast to Fen: Archaeology in a Dynamic Landscape** Claire Christie, Joshua T. Hogue, 2025-07-18 Excavations across East Lincolnshire reveal prehistoric Iron Age Roman and post medieval settlements saltmaking and industrial activity shaped by changing landscapes The area between Anderby Creek and Bicker Fen Lincolnshire to the west of the Lincolnshire Wolds represents a dynamic landscape both in terms of its natural and human aspects This volume presents the results of an extensive programme of archaeological

excavation undertaken by Headland Archaeology UK Ltd and Allen Archaeology Ltd from 2018 to 2019 where a total of 15 sites were excavated. The excavations uncovered a panoply of remains spanning the prehistoric through to modern periods providing important insights into changing patterns of occupation and the way this diverse landscape was utilised. As evidenced through the archaeological works, the area saw limited activity during the early prehistoric period in part reflecting the prevailing environmental conditions in which most of the area was inundated. Among the earliest recorded finds was an enigmatic middle Bronze Age timber structure as well as a copper alloy axe. During the Roman period there is evidence for an expansion in activity across the Scheme with formerly inundated areas becoming accessible. Activity within the northern half of the Scheme was focused upon salt production. Two of these sites were dated to the late Roman period, contrary to the prevailing notion that the salt industry in this region had declined by the mid 2nd century AD. Within the southern half of the Scheme were several Roman farmsteads, some featuring timber buildings. Notable among these was an unusual post built moated structure. From these sites a range of artefactual and environmental data was collected providing important insights into the nature of agricultural regimes. Evidence of medieval and post medieval activity was also uncovered providing important insights into the development of rural settlement against a backdrop of landscape and environmental changes. Evidence of late to post medieval clay extraction and brick manufacture was also identified.
