Checking for Understanding Douglas Fisher, Nancy Frey, 2015-12-18 A teacher presents a lesson and at the end asks students if they understand the material The students nod and say they get it Later the teacher is dismayed when many of the students fail a test on the material Why aren't students getting it And just as important why didn't the teacher recognize the problem In Checking for Understanding Douglas Fisher and Nancy Frey show how to increase students understanding with the help of creative formative assessments When used regularly formative assessments enable every teacher to determine what students know and what they still need to learn Fisher and Frey explore a variety of engaging activities that check for and increase understanding including interactive writing portfolios multimedia presentations audience response systems and much more This new 2nd edition of Checking for Understanding has been updated to reflect the latest thinking in formative assessment and to show how the concepts apply in the context of Fisher and Frey's work on gradual release of responsibility guided instruction formative assessment systems data analysis and quality instruction Douglas Fisher and Nancy Frey are the creators of the Framework for Intentional and Targeted FIT Teaching They are also the authors of numerous ASCD books including The Formative Assessment Action Plan Practical Steps to More Successful Teaching and Learning and the best selling Enhancing RTI How to Ensure Success with Effective Classroom Instruction and Intervention

Protocols in the Classroom David Allen, Tina Blythe, Alan Dichter, Terra Lynch, 2018-08-03 Spinning off from The Power of Protocols David Allen Alan Dichter Tina Blythe and Terra Lynch seek to bring discussion protocols to the classroom for teachers to use with their high school students Protocols in the Classroom will use the same dependable ideas that the authors developed during more than two decades of work for multiple editions of The Power of Protocols which has provided an invaluable resource to teachers administrators and teacher educators to support their professional learning and development The authors proposed book extends beyond professional development for educators by bringing discussion protocols into the classroom while using vignettes and facilitation tips to further explain how educators can use protocols with students effectively Protocols in the Classroom will feature descriptions of protocols that are familiar from the earlier books e.g. The Last Word The Tuning Protocols The Consultancy and new ones Like the earlier books it also includes guidelines for teachers in using the protocols effectively as well as discussion of important considerations in using protocols with students including the role of the teacher and students preparation for participating in discussion protocols

Productive Multivocality in the Analysis of Group Interactions Daniel D. Suthers, Kristine Lund, Carolyn Penstein Rosé, Chris Teplov, Nancy Law, 2013-12-02 The key idea of the book is that scientific and practical advances can be obtained if researchers working in traditions that have been assumed to be mutually incompatible make a real effort to engage in dialogue with each other comparing and contrasting their understandings of a given phenomenon and how these different understandings can either complement or mutually elaborate on each other This key idea applies to many

fields particularly in the social and behavioral sciences as well as education and computer science The book shows how we have achieved this by presenting our study of collaborative learning during the course of a four year project Through a series of five workshops involving dozens of researchers the 37 editors and authors involved in this project studied and reported on collaborative learning technology enhanced learning and cooperative work The authors share an interest in understanding group interactions but approach this topic from a variety of traditional disciplinary homes and theoretical and methodological traditions This allows the book to be of use to researchers in many different fields and with many different goals and agendas
