Third International Conference on Image Processing and Capsule Networks Joy Long-Zong Chen, João Manuel R. S. Tavares, Fuqian Shi, 2022-07-28 This book provides a collection of the state of the art research attempts to tackle the challenges in image and signal processing from various novel and potential research perspectives The book investigates feature extraction techniques image enhancement methods reconstruction models object detection methods recommendation models deep and temporal feature analysis intelligent decision support systems and autonomous image detection models In addition to this the book also looks into the potential opportunities to monitor and control the global pandemic situations Image processing technology has progressed significantly in recent years and it has been commercialized worldwide to provide superior performance with enhanced computer machine vision video processing and pattern recognition capabilities Meanwhile machine learning systems like CNN and CapsNet get popular to provide better model hierarchical relationships and attempts to more closely mimic biological neural organization As machine learning systems prosper image processing and machine learning techniques will be tightly intertwined and continuously promote each other in real world settings Adopting this trend however the image processing researchers are faced with few image reconstruction analysis and segmentation challenges On the application side the orientation of the image features and noise removal has become a huge burden

Mental Health in Bangladesh S. M. Yasir Arafat, 2024-03-11 This book is about mental health in Bangladesh Bangladesh is a densely populated country in South Asia with a population of about 170 million It has seen significant economic growth over the last decades and it has recently improved from being a low income country to a lower middle income country Currently Bangladesh is facing a double burden of disease i e both communicable and non communicable About 60% of the disease burden is incurred by non communicable diseases Mental disorders are one of the top five burdens of non communicable disease in the country However psychiatry is a neglected issue in Bangladesh There are high stigma services gaps out of pocket expense low mental health literacy and extreme scarcity of budget Academically it has also been under addressed and under researched Therefore the editor aims to provide a comprehensive book on mental health in Bangladesh based on existing evidence and expertise focusing on academic aspects of community mental health service

Islam and Democracy in South Asia Md Nazrul Islam, Md Saidul Islam, 2020-03-20 Grounded in the Weberian tradition Islam and Democracy in South Asia The Case of Bangladesh presents a critical analysis of the complex relationship between Islam and democracy in South Asia and Bangladesh The book posits that Islam and democracy are not necessarily incompatible but that the former has a contributory role in the development of the latter Islam came to Bengal largely by Sufis and missionaries through peaceful means and hence a moderate form of this religion got rooted in the society Both militant Islam and militant secularism are equal threats to democracy and pluralism Like democracy political Islam has many faces Political Islam adhering to democratic norms and practices what the authors call democratic Islamism unlike militant

Islamism is not anti democratic The book shows that the suppression of democracy and human rights creates avenues for the consolidation of militant Islamism orthodox Islam and Islamic terrorism while the fair play of democracy results in the decline of anti democratic form of political Islam **The World of Learning 1990** ,1990 *Islam, Muslims and the Modern State*
