Phillips,Jeansok J. Kim,Daeyeol Lee, The brain is the organ of decision making and evolved to maximize the outcomes desirable for the survival and reproduction of the species Compared to the sensory and motor functions of the brain however the process of decision making is less accessible to direct experimental manipulations and hence requires more careful theoretical analyses Indeed the principle of optimality and frequent departures of human behaviors from those predicted for optimal rational decision makers have long been studied experimentally as well as theoretically However it is only recently that neurobiological studies of decision making started exploiting the framework previously developed in economics and psychology systematically This cross disciplinary research program known as neuroeconomics has already been enormously successful Increasingly neuroscientists benefit from the studies of utility theory game theory prospect theory and reinforcement learning theory and contribute to the refinement of such theories by providing more relevant empirical data This Research Topic will showcase the recent advances in neuroeconomics that combine economic and behavioral analyses in neurobiological studies of value based decision making **Teaching Today's Health** David J. Anspaugh,1987 Medical Terminology, Enhanced Edition Judi L. Nath,2020-05-22 Medical Terminology Enhanced Second Edition uses a proven work text approach that helps students master the information they need to communicate successfully in the health care world **Online** ,1985 *Creating eCourses For Dummies* Amanda Rosenzweig,2024-04-23 Design and build online courses that you will deploy with joy Need to create a course for your learners and don t know where to begin Creating eCourses For Dummies will guide you through the process of creating engaging content around objectives and a solid instructional plan In this book you ll find a feasible plan for designing and creating a course in a short time period while leveraging technology community building if desired accessibility and engagement Creating eCourses For Dummies encourages you to follow along chapter by chapter creating a course as you go Make the transition to online teaching and create a course quickly step by
