The Assassination of William McKinley Cary Federman, 2017-12-06 This book is an examination of the assassination of President William McKinley by Leon Czolgosz an American born purported anarchist This work offers a new and different way to approach historical crime stories Rather than accepting the idea that Czolgosz was inherently dangerous because of his ethnic background or his obscure political statements Federman argues rather that political relations historical events and the developing discourses in the natural and social sciences toward normal and pathological behaviors structured the meaning of the assassination Federman proposes there are six ways to view an assassin each corresponding to a social science Consequently each chapter of this manuscript examines a social science and its relation to the assassination Overall there are three purposes to this work One is to examine the rise of the social sciences

at the time of the assassination The second is to explore the historical and political understanding of political violence and the third is to examine the meaning of legal responsibility

Fundamentals of Paramedic Practice Sam Willis,Roger Dalrymple,2019-11-04 Driven by changes to clinical practice new evidence based research and shifts in global economics and politics the field of paramedic science is rapidly evolving This new edition of Fundamentals of Paramedic Practice offers students and recently qualified practitioners an accessible and comprehensive introduction to paramedic science and pre hospital care providing expert and up to date guidance on the essential theories and real world practice of this dynamic area of emergency medicine Assuming no prior knowledge of the subject this user friendly textbook provides broad and inclusive coverage of topics including professionalism law and ethics assessment skills research methods pharmacology and more Contributions from experienced paramedics and clinicians contemporary case studies full colour illustrations and powerful pedagogical tools help students gain a thorough understanding of the essential components of paramedic practice Employs a comprehensive multidisciplinary approach to the study of paramedic practice presenting theoretical and clinical topics in a straightforward and student friendly manner New chapters on toxicology medical terminology and low acuity care in paramedicine with an increased focus on mental health Includes new end of chapter learning activities and quizzes case studies and references charts and diagrams Fundamentals of Paramedic Practice A Systems Approach is an invaluable resource for undergraduate paramedic and emergency care students as well as qualified paramedics clinicians and educators seeking an authoritative reference on current practice

Military Review ,1930 Junqueira's Basic Histology: Text and Atlas, 12th Edition : Text and Atlas Anthony Mescher,2009-08-28 The most authoritative histology text available now in full color A Doody s Core Title ESSENTIAL PURCHASE for 2011 For more than three decades Junqueira s Basic Histology has been unmatched in its ability to explain the function of cell and tissue structure in the human body Updated to reflect the latest research in the field and enhanced with more than 1 000 illustrations most in full color the 12th Edition is the most comprehensive and modern approach to understanding medical histology available anywhere Features NEW full color micrographs that comprise a complete atlas of tissue sections highlight the important features of every tissue and organ in the human body New full color easy to understand drawings provide just the right level of detail necessary to clarify the text and make learning easier A valuable introductory chapter on laboratory methods used for the study of tissues including the most important types of microscopy A logical organization that features chapters focusing on the cytoplasmic and nuclear compartment of the cell the four basic tissues that form the organs and each organ system Expanded legends that accompany each figure emphasize important points and eliminate the need to jump from image to text Medical applications explain the clinical relevance of each topic Complete coverage of every tissue of the body CD ROM with all the images from the text Visit www.LangeTextbooks.com to access valuable resources and study aids
