It's Time for Strategic Scheduling Nathan Levenson, David James, 2023-07-03 An accessible guide to creating schedules that amplify school and district priorities, support best practices in teaching and learning, heighten student engagement, and enhance equity. A school's schedule can be as important to education outcomes as its budget or strategic plan. The secret to making the schedule a tool for school improvement is to approach schedule design not as a technical task centered on making everything fit like Tetris blocks but as a strategic one. In this book, informed by research and their work with hundreds of schools, scheduling experts Nathan Levenson and David James explore how strategic scheduling can turn a good enough schedule into one that supercharges learning and engagement without additional costs or more FTEs. If you are ready to figure out which schedule type is best for your students and staff, disrupt harmful tracking, and ensure every student has access to highly skilled teachers and rigorous curriculum, deliver optimum hours of core instruction while expanding electives and providing opportunities for student voice and choice, precisely match staffing to course enrollment to free up personnel and funds for other purposes, find time for critical intervention and enrichment blocks, and communicate scheduling decisions more effectively to parents, families, and district leaders, then it's time for strategic scheduling. Offering targeted advice for best practice scheduling at the elementary, middle, and high school levels, this book will help school and district leaders and the teachers and students they serve make the most of every school day and every school year.

District Leadership for Racial Equity Larkin Willis, Desiree Carver-Thomas, Linda Darling-Hammond, 2025-07-30 District Leadership for Racial Equity shows how transformative changes can occur across diverse districts when leaders take purposeful action in support of racial equity. Developed as part of the Racial Equity Leadership Network initiative led by Southern Education Foundation, this collection provides an opportunity for leaders to learn from district reform efforts that have reduced disparities and improved outcomes for students of color across unique contexts. The cases presented acknowledge the challenges leaders face but they also demonstrate that change is possible when leaders build will and capacity to support successful student outcomes. It examines the cases of racial equity leaders across four districts who have developed approaches that create new opportunities and outcomes for students who

have been historically marginalized District Leadership for Racial Equity is an essential resource for emerging leaders leader practitioners and policymakers who are committed to reducing disparities and improving outcomes for all students especially those who are marginalized and underserved in our schools and society Additional resources for download are found online here <https://www.routledge.com/9781032938882> The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
