Explicating Maxine Greene's Notion of Naming and Becoming: "I Am ... Not Yet" Christine Debelak Neider, 2021-09-06
This volume offers a Naming praxis with which teachers might more closely align with their ethical ideals in the midst of their daily practice and relationships with students Framed ontologically in Maxine Greene's existential phenomenological notion of Becoming the author explicates Greene's Naming as a praxis within her own early teaching experiences through the interpretive methods of currere and teacher lore This study evolves in epistolary conversation with Maxine Greene teacher colleagues and new teachers It demonstrates the possibilities of applying critical reflective and discursive dialogue to the tensions of a teacher's life of practice in order to identify the obstacles to and the opportunities of the Becoming of the teacher and the student's in the educational encounter

Instructor, 1999 *Excellence Through Equity* Alan M. Blankstein, Pedro Noguera, Lorena Kelly, 2016-02-26 Excellence Through Equity is an inspiring look at how real world educators are creating schools where all students are able to thrive In these schools educators understand that equity is not about treating all children the same They are deeply committed to ensuring that each student receives what he or she individually needs to develop their full potential and succeed To help educators with what can at times be a difficult and challenging journey Blankstein and Noguera frame the book with five guiding principles of Courageous Leadership Getting to your core Making organizational meaning Ensuring constancy and consistency of purpose Facing the facts and your fears Building sustainable relationships They further emphasize that the practices are grounded in three important areas of research that are too often disregarded 1 child development 2

neuroscience and 3 environmental influences on child development and learning You ll hear from Carol Corbett Burris Michael Fullan Marcus J Newsome Paul Reville Susan Szachowicz and other bold practitioners and visionary thinkers who share compelling and actionable ideas strategies and experiences for closing the achievement gap in your classrooms and school Ensuring that all students receive an education that cultivates their talents and potential is in all our common interest As Andy Hargreaves writes in the coda The opportunity for all Americans is to articulate and believe in an inspiring vision of educational change that is about what the next generation of America and Americans should become not about a target or ranking that the nation should attain From the Foreword by Archbishop Desmond Tutu Letting go of a system of winners and losers in favor of what is proposed in this book is a courageous leap forward that we all must take together Let this bold practical book be a guide and may you travel into this new exciting vista in which every child can succeed

Principles of Mathematics Book 1 Teacher Guide Katherine Loop,2016-08-05 Teacher Guide for Book 1 of the Principles of Mathematics Biblical Worldview Curriculum for junior high Math is a real life tool that points us to God and helps us explore His creation yet it often comes across as dry facts and meaningless rules Here at last is a curriculum that has a biblical worldview integrated throughout the text and problems not just added as an afterthought The resources in the Teacher Guide will help students master and apply the skills learned in the Student Textbook What does this Teacher Guide include Worksheets Quizzes and Tests These perforated three hole punched pages help provide practice on the principles taught in the main student textbook Answer Keys The answers are included for the worksheets quizzes and tests found in this Teacher Guide Schedule A suggested calendar schedule is provided for completing the material in one year though this can be adapted to meet individual student needs There is also an accelerated schedule for completing the material in one semester Are there any prerequisites for this course This curriculum is aimed at grades 6 8 fitting into most math approaches the year or two years prior to starting high school algebra If following traditional grade levels Book 1 should be completed in grade 6 or 7 and Book 2 in grade 7 or 8 In Book 1 students should have a basic knowledge of arithmetic basic arithmetic will be reviewed but at a fast pace and while teaching problem solving skills and a biblical worldview of math and sufficient mental development to think through the concepts and examples given Typically anyone in sixth grade or higher should be prepared to begin The focus of the course is actually learning math for life not simply preparing to pass a test
