Property System I found that very few people understand even the basics of our system What s a patent What s a copyright
What s a trade secret What s a trademark What about the international situation When I taught my classes my students got
lost and overwhelmed by all the complexities and jargon When I talk to small businessmen managers corporate businessmen
corporate executives authors inventors international businessmen musicians film makers educators entrepreneurs and even
engineers they usually don t have a clue about any of this yet their future depends on it Perhaps you are in a foreign country
and wish to do business in the United States I designed this book for the person who knows absolutely nothing about our
system It s based on my experience in the classroom on how best to present this information to an audience starting from
ground zero I have taken the complex material down from the mountaintop and creatively simplified it into easy to
understand bite sized pieces using easy to follow real world examples to illustrate key points I deliberately kept this book
short less overwhelming that way Are you a student small businessman educator entrepreneur inventor international
businessman author musician film maker manager corporate businessman corporate executive or even an engineer Are you
in a foreign country and wish to do business here in the United States You want to learn about our system yet don t know
where to begin Is what you are currently looking at overwhelming confusing and complex Feeling frustrated Stop worrying
