

Accounting Equation Problems and Solutions

Accounting is based on the principle of two-sided. In order to carry out business activities, the company needs funds; these funds must be given to the company by someone. The funds owned by the company are called **assets**. Part of these assets is provided by the owner, total amount of funds contributed by him is called **owner's equity** or capital. If the owner is the only one who contributed, then the equation $A = O.E$ will be fair. (assets equal to capital). However, the assets may be contributed by someone else who is not the owner. The debt of the enterprise for these assets is called liabilities. Therefore, now the equation will take the following form: $A = L + O.E$. (Assets equal equity plus liabilities). The left and right sides of the equation always coincide.

Assets = Liabilities + Owner's Equity

The equality of both parts of the equation is always maintained. For deep understanding of accounting equation, following are important accounting equation questions:

Problem 1:

Habib Ullah Sadiq is wholesale trader; following transactions are record in Accounting Equation?

- i. Commence business with cash Rs. 200,000 and Land Rs. 50,000.
- ii. Bought merchandising for cash Rs. 80,000.
- iii. Cash sales of worth Rs. 25,000.
- iv. Bought goods on credit from Salman of worth Rs. 50,000.
- v. Sales on account to Ali Raza Rs. 12,000.
- vi. Purchase furniture of the value of Rs. 5,000 by cash.
- vii. Received cash from Ali Raza of Rs. 10,000.
- viii. Return defective furniture of worth Rs. 1,500.
- xi. Paid wages Rs. 1,000, Rent 2,000 and Electricity Bill Payable Rs. 1,500.

familiar with Excel and have used it extensively for data analysis and financial modeling I am also open to learning new software and tools as needed

4 Can you explain the difference between accounts payable and accounts receivable Answer Accounts payable represents the money a company owes to its suppliers or creditors for goods or services received while accounts receivable represents the money owed to the company by its customers for goods or services delivered Essentially accounts payable is a liability and accounts receivable is an asset

5 How do you ensure accuracy in your work Answer I ensure accuracy by double checking my work following established procedures and maintaining a high level of organization During my internship I developed a habit of reviewing my entries and calculations to minimize errors I also find it helpful to use checklists and set reminders for critical tasks to ensure nothing is overlooked

6 Can you describe a challenging situation you faced during your internship and how you handled it Answer During my internship I was tasked with reconciling a large volume of transactions that had discrepancies I systematically went through each transaction matched them with supporting documents and identified the source of the discrepancies By carefully analyzing the data and collaborating with my supervisor I was able to resolve the issues and ensure accurate financial records This experience taught me the importance of attention to detail and persistence in problem solving

7 What are the main financial statements and why are they important Answer The main financial statements are the balance sheet income statement and cash flow statement The balance sheet provides a snapshot of a company s financial position at a specific point in time showing its assets liabilities and equity The income statement shows the company s financial performance over a period including revenue expenses and net profit The cash flow statement outlines the inflows and outflows of cash indicating the company s liquidity and ability to generate cash These statements are important because they provide insights into a company s financial health and are used by stakeholders to make informed decisions

8 How do you stay updated with the latest accounting regulations and standards Answer I stay updated by regularly reading industry publications such as the Journal of Accountancy and the CPA Journal I also follow updates from professional bodies like the AICPA and FASB Additionally I plan to pursue continuing education and certifications such as the CPA to ensure that I am aware of the latest developments in the field

9 What are your strengths and weaknesses Answer My strengths include strong analytical skills attention to detail and proficiency with accounting software I am also a quick learner and can adapt to new environments and tools efficiently As for weaknesses I sometimes find it challenging to delegate tasks because I want to ensure everything is done correctly However I am working on improving my delegation skills by trusting my team members and providing clear instructions and support

10 Where do you see yourself in five years Answer In five years I see myself as a certified public accountant CPA with advanced skills and experience in financial analysis and reporting I aim to take on more responsibilities and possibly move into a managerial position where I can lead a team and contribute to strategic decision making I am committed to continuous learning and professional development to achieve these goals
