Accounting Grade November 2014 Memo:

Credit Rating Governance Ahmed Naciri, 2015-01-30 Credit rating agencies play an essential role in the modern financial system and are relied on by creditors and investors on the market. In the recent financial crisis their power and reliability were often questioned yet a simple rating downgrade could threaten to bankrupt a whole country. This book examines the governance of credit rating agencies as expressed by their ability to fairly, ethically and consistently assign higher rates to issuers having lesser default risks. However, factors such as the drive for increased revenue and market share, the inadequate business model, the inadequate methodology of assessing risk, opacity and inadequate internal monitoring have all been identified as critical governance failures for credit agencies. This book explores these issues and proposes some potential solutions and improvements. This will be of interest to researchers and advanced students of corporate finance, financial economics, risk management, investment management and banking.

Minerals Yearbook Geological Survey, Interior Department, Mines Bureau, 2019-02-15 This volume covering metals and minerals contains chapters on approximately 90 commodities. In addition, this volume has chapters on mining and quarrying trends and on statistical surveying methods used by Minerals Information plus a statistical summary.

Minerals Yearbook Mines Bureau, Geological Survey, Interior Department, 2018-04-19 Minerals Yearbook 2014 V 3 Area Reports International Asia and the Pacific Volume III Area Reports International is published as four separate reports. These regional reports contain the latest available minerals data on more than 180 foreign countries and discuss the importance of minerals to the economies of these nations and the United States. Each report begins with an overview of the region's mineral industries during the year. It continues with individual country chapters that examine the mining, refining, processing and use of minerals in each country of the region and how each country's mineral industry relates to U.S. industry. Most chapters include production tables and industry structure tables, information about Government policies and programs that affect the country's mineral industry and an outlook section.

Transatlantic Financial Regulation Peter O'Shea, 2021-08-13 This book examines cooperation between the US and the EU on financial regulatory reform, notably at the outset and the first three years of the global financial crisis. It discusses the development of US-EU cooperation on financial regulation over the last few decades at several levels, including at heads of state level, markets regulator level and at international level, and progresses with a detailed examination of cooperation at the outset of the financial crisis. It looks at the nature of and motivation for intense US-EU cooperation on coordinating a response to the crisis and presents a compelling argument that a defacto alliance was formed which served to benefit respective US and EU interests domestically and in the international financial system. Providing a new perspective on financial regulatory reform after the last financial crisis and the relationship of regulatory outcomes to international financial governance, this volume will be of use to researchers interested in transatlantic relations, financial regulation, international relations, global governance and the European Union as well as professionals and
