ECRM2014-Proceedings of the 13th European Conference on Research Methodology for Business and Management Studies Dr Martin Rich, Dr Anne Brown, 2014-06-16 Translanguaging and Epistemological Decentring in Higher Education and Research

Heidi Bojsen, Petra Daryai-Hansen, Anne Holmen, Karen Risager, 2023-01-13 Using data from multilingual settings in universities and adjacent learning contexts in East Asia North Africa Central and North America and Europe this book provides examples of the heuristic value of translanguaging and epistemological decentring Despite this and other theoretical and empirical work and ever stronger calls for the inclusion of other languages epistemologies and constructions of culture in higher education decentring and translanguaging practices are often relegated to the margins or suppressed in research and education because of the organisational structures of education institutions and prevailing language norms policies and ideologies The authors draw on research on pluri and multilingualism within education studies as well as post and decolonial theoretical contributions to the research on the role of language in education and knowledge production to provide evidence that decentring cannot happen until learners have been given the tools to identify which sorts of centring dynamics and conditions are salient to their learning and trans languaging **Democratic Evaluation and Democracy**

Fanny Meunier, Julie Van de Vyver, Linda Bradley, Sylvie Thouësny, 2019-12-09 The theme selected for the 2019 EuroCALL conference held in Louvain la Neuve was CALL and complexity As languages are known to be intrinsically and linguistically complex as are the many determinants of learning additional languages complexity is viewed as a challenge to be embraced collectively The 2019 conference allowed us to pay tribute to providers of CALL solutions and to recognize the complexity of their task We hope you will enjoy reading this volume as it offers a rich glimpse into the numerous debates that took place during EuroCALL 2019 We look forward to continuing those debates and discussions with you at the next EuroCALL conferences The Texture of the Lexicon Ray Jackendoff, Jenny Audring, 2020

This volume offers a major reconceptualization of linguistic theory through the lens of morphology crucially collapsing the distinction between the lexicon and the grammar This approach accounts for both productive and non productive morphological phenomena and moreover integrates linguistic theory into psycholinguistics and human cognition **Annual Report** Mpumalanga (South Africa). Department of Education,2014 **Global Development and Human Rights** Paul J. Nelson,2021-06-22 Global Development and Human Rights analyses global efforts to implement long term goals that seek to promote the health happiness and freedoms of individuals Exemplars of Truth Keith Lehrer,2019-01-02 The monograph explains how knowledge requires the capacity to justify or defend the target claim of knowledge Defensibility is based on a background system Lehrer argues that reflection on experience yields a self referential exemplar representation This is the novel contribution of his new book to truth about the perceptual world **Curating the Digital** David England,Thecla Schiphorst,Nick Bryan-Kinns,2016-06-01 This book combines work from curators digital artists human computer interaction researchers and computer scientists to examine the mutual benefits and challenges posed when working together to support digital art works in their many forms In Curating the Digital we explore how we can work together to make space for art and interaction We look at the various challenges such as the dynamic nature of our media the problems posed in preserving digital art works and the thorny problems of how we assess and measure audience s reactions to interactive digital work Curating the Digital is an outcome of a multi disciplinary workshop that took place at SICHI2014 in Toronto The participants from the workshop reflected on the theme of Curating the Digital via a series of presentations and rapid prototyping exercises to develop a catalogue for the future digital art gallery The results produce a variety of insights both around the theory and philosophy of curating digital works and also around the practical and technical possibilities and challenges We present these complimentary chapters so that other researchers and practitioners in related fields will find motivation and imagination for their own work
