What Is Cool?

No one can truly understand the sensation of jumping directly onto a turtle, but this is just one of many characteristics bestowed upon the main character in the book *Super Plumber Guy*. The book depicts a brightly lit world of wonder, fungi, and amphibians in varying biomes. While the main character, Mr. Plumber, is depicted as an everyman, his distinct look, style, and behaviors as described in the book show that he is anything but.

Mr. Plumber was originally written as something of an everyday character that the reader could embody. He has no true personality, nor does he have a voice, often allowing secondary characters around him to fill in the gaps. The reader does know that he wears a brightly colored hat, jumps high, and enjoys mushrooms. These are humble characteristics that bring out the humanity of the character. Most people are not a list of unique characteristics but a mosaic of smaller idiosyncrasies.

Super Plumber Guy remains a popular read containing a human character that many might consider boring or free of personality. However, Mr. Plumber is an exceedingly human character who acts as a blank slate for the reader. Diving deeper into other characters and their interactions with him may glean further insight into Mr. Plumber's motivations and inner psychology.

The International Student's Guide to Writing a Research Paper Janine Carlock, Maeve Eberhardt, Jaime Horst, Peter Kolenich, 2017-06-13 The International Student's Guide to Writing a Research Paper is a reference text for undergraduate students and those in ESL or bridge courses who are writing a research paper for the first time This book is partly an update of Writing a Research Paper by Lionel Menasche 1998 and partly a companion to The ESL Writer's Handbook Each section of the book includes a discrete task called a Building Block which requires students to apply the skills learned toward the development of their own paper This step by step approach allows students to construct knowledge as they become more familiar with the process making writing a research paper a less intimidating task

Special features This guide uses simple direct language for those for whom writing a research paper is new Most example writing is from international students in an ESL program or first year writing class including two sample papers one in APA and one in MLA A section on responding to instructor feedback to provide students with the tools to read and understand comments and use them to improve the first draft A subsection dedicated to constructing clear and cohesive paragraphs and sentences The guide includes citation and style examples in MLA 8th edition

Locke's Science of Knowledge Matt Priselac, 2016-10-26 John Locke s *An Essay Concerning Human Understanding* begins with a clear statement of an epistemological goal to explain the limits of human knowledge opinion and ignorance The actual text of the Essay in stark

contrast takes a long and seemingly meandering path before returning to that goal at the Essay's end one with many detours through questions in philosophy of mind metaphysics and philosophy of language Over time Locke scholarship has come to focus on Locke's contributions to these parts of philosophy In Locke's Science of Knowledge Priselac refocuses on the Essay's epistemological thread arguing that the Essay is unified from beginning to end around its compositional theory of ideas and the active role Locke gives the mind in constructing its thoughts To support the plausibility and demonstrate the value of this interpretation Priselac argues that contrary to its reputation as being at best sloppy and at worst outright inconsistent Locke's discussion of skepticism and account of knowledge of the external world fits neatly within the Essay's epistemology
