Brandenburg, PhD,2014-11-19 New proof of a nuclear catastrophe on Mars In an epic story of discovery strong evidence is presented for a dead civilization on Mars and the shocking reason for its demise an ancient planetary scale nuclear massacre leaving isotopic traces of vast explosions that endure to our present age The story told by a wide range of Mars data is now clear Mars was once Earth like in climate with an ocean and rivers and for a long period became home to both plant and animal life including a humanoid civilization Then for unfathomable reasons a massive thermo nuclear explosion ravaged the

centers of the Martian civilization and destroyed the biosphere of the planet But the story does not end there This tragedy may explain Fermi s Paradox the fact that the cosmos seemingly so fertile and with so many planets suitable for life is as silent as a graveyard We must immediately send astronauts to Mars to maximize our knowledge of what happened there and learn how to avoid Mars fate Includes an 8 page color section
