Fighting Better Louis Kriesberg, 2022-12-08 The people in the United States are experiencing an extreme degree of division political partisanship and civic disorder Destructive fights are waged about matters such as misinformation voting rights school curriculum government spending and personal privacy How can these distressing circumstances be overcome More specifically what makes the difference between conflicts that result in progress versus those that further contribute to a greatly polarized extremely unequal and distressed society In *Fighting*

Better Louis Kriesberg argues that the crises confronting the US presently are the result of changes in dynamics along three societal dimensions class status and power Those changes were brought about to a great degree by people waging conflicts constructively destructively or avoiding overt conflicts altogether Assessing major domestic conflicts in the United States since 1945 Kriesberg evaluates how well conflicts were waged in terms of advancing justice liberty and equal opportunity for all Americans Moreover he offers ideas for how some of those fights might have been waged more effectively and with longer term benefits connecting current US crises to past mistakes In doing so Kriesberg deepens our understanding of how the way conflicts are waged can help to reduce inequities in class power and status particularly with regard to gender and race

Education for Victory Olga Anna Jones,1944 **Top Down** Karen Ferguson,2013-06-13 At first glance the Ford Foundation and the black power movement would make an unlikely partnership After the Second World War the renowned Foundation was the largest philanthropic organization in the United States and was dedicated to projects of liberal reform Black power ideology which promoted self determination over color blind assimilation was often characterized as radical and divisive But Foundation president McGeorge Bundy chose to engage rather than confront black power s challenge to racial liberalism through an ambitious long term strategy to foster the social development of racial minorities The Ford Foundation not only bankrolled but originated many of the black power era s hallmark legacies community control of public schools ghetto based economic development initiatives and race specific arts and cultural organizations In *Top Down* Karen Ferguson explores the consequences of this counterintuitive and unequal relationship between the liberal establishment and black activists and their ideas In essence the white liberal effort to reforge a national consensus on race had the effect of remaking racial liberalism from the top down a domestication of black power ideology that still flourishes in current racial politics Ultimately this new racial liberalism would help foster a black leadership class including Barack Obama while accommodating the intractable inequality that first drew the Ford Foundation to address the race problem

Teaching Women's History Kelsie Brook Eckert, 2024-07-04 Teaching Women s History Breaking Barriers and Undoing Male Centrism in K 12 Social Studies challenges and guides K 12 history teachers to incorporate comprehensive and diverse

women's history into every region and era of their history curriculum. Providing a wealth of practical examples, ideas, and lesson plans all backed by scholarly research for secondary and middle school classes, this book demonstrates how teachers can weave women's history into their curriculum today. It breaks down how history is taught currently, how teachers are prepared, and what expectations are set in state standards and textbooks, and then shows how teachers can use pedagogical approaches to better incorporate women's voices into each of these realms. Each chapter explores a major barrier to teaching an inclusive history and how to overcome it, and every chapter ends with an inquiry-based lesson plan on women or using women's sources, which stands counter to the way curriculum is traditionally taught, a case in point that tasks readers to realize how women have been integral to every period of history. With expert guidance from an award-winning social studies teacher, this guidebook will be important reading for middle and high school history educators. It will also be beneficial to preservice teachers, particularly within Social Studies Education and Gender Studies.
