## BREAKDOWN

Lynx is a rather simple healer that has the ability to increase team members HP based on her own. She has a team wide cleanse and can even prevent debuffs from applying with her traces. At higher Eidolons she can even provide a small amount of attack to your team members she heals. Her entire kit scales with HP making it easy to build her for strong healing. Lynx is the best team star healer in the game as of patch 1.3 so I highly suggest investing in her and pairing her with characters like Blade who scale with HP.
