based approach to art education does not however mandate that these four disciplines be taught separately rather the disciplines are to provide justifications subject matter and methods as well as exemplify attitudes that are relevant to the cultivation of perception in matters of art They offer different analytical contexts to aid our understanding and aesthetic enjoyment contexts such as the making of unique objects of visual interest artistic creation the apprehension of art under the aspects of time tradition and style art history the reasoned judgment of artistic merit art criticism and the critical analysis of basic aesthetic concepts and puzzling issues aesthetics Discipline based art education thus assumes that our ability to engage works of art intelligently requires not only our having attempted to produce artworks and gained some awareness of the mysteries and difficulties of artistic creation in the process but also our having acquired familiarity with art's history its principles of judgment and its conundrums
