Your Wit Is My Command Tony Veale,2021-09-07 For fans of computers and comedy alike an accessible and entertaining look into how we can use artificial intelligence to make smart machines funny Most robots and smart devices are not known for their joke telling abilities And yet as computer scientist Tony Veale explains in Your Wit Is

My Command machines are not inherently unfunny they are just programmed that way By examining the mechanisms of humor and jokes how jokes actually works Veale shows that computers can be built with a sense of humor capable not only of producing a joke but also of appreciating one Along the way he explores the humor generating capacities of fictional robots ranging from B 9 in Lost in Space to TARS in Interstellar maps out possible scenarios for developing witty robots and investigates such aspects of humor as puns sarcasm and offensiveness In order for robots to be funny Veale explains we need to analyze humor computationally Using artificial intelligence AI Veale shows that joke generation is a knowledge based process a sense of humor is blend of wit and wisdom He notes that existing technologies can detect sarcasm in conversation and explains how some jokes can be pre scripted while others are generated algorithmically all while making the technical aspects of AI accessible for the general reader Of course there s no single algorithm or technology that we can plug in to make our virtual assistants or GPS voice navigation funny but Veale provides a computational roadmap for how we might get there
