Amazing Arts 13 Max Beckmann Volume 13:

Amazing Arts # 13 Dirk Stursberg, 2014-11-07 Amazing Arts is a book series by Harliet Maina and Dirk Stursberg www.thevintageden.com Max Beckmann in New York Sabine Rewald, 2016-10-19 In December 1950 the German Expressionist Max Beckmann set out from his Manhattan apartment to see his Self Portrait in Blue Jacket on view at The Met when he suffered a fatal heart attack Inspired by the poignant circumstances of the artist's death Max Beckmann in New York focuses on 40 beautifully illustrated works that Beckmann painted in the city during the last 16 months of his life as well as earlier works in New York collections An informative and accessible essay by art historian Sabine Rewald as well as detailed catalogue entries for each work and generous excerpts from the artist's letters diaries and ephemera illuminate Beckmann's difficult and tumultuous life and make this an essential volume for anyone interested in the artist **Art in a State of Siege** Joseph Leo Koerner, 2025-02-04 A study of the work of three monumental artists living during different historical periods providing a rich understanding of the role of images created in dangerous times Pictorial Narrative in the Nazi Period Deborah Schultz, Edward Timms, 2013-10-31 This book investigates creative responses to the Nazi period in the work of three artists Felix Nussbaum Charlotte Salomon and Arnold Dagbani focusing on their use of pictorial narrative It analyses their contrasting aesthetic strategies and their innovative forms of artistic production In contrast with the autonomous modernist art object their works were explicitly linked with the historical conditions under which they were produced the pressures of persecution and exile Conditions in the slave labour camps and ghettos in the Ukraine which shaped the paintings and drawings of Dagbani are contrasted with the experiences of exile in Belgium and France which inspired Nussbaum and Salomon In defiance of conventional artistic practice they produced word image combinations that can be read as narrative sequences incorporating specific references to political events While there has been a wealth of literary philosophical and historical studies relating to the Holocaust aesthetic debate has developed less extensively This is the first comparative study of three artists who are only belatedly achieving recognition and the recent reception of their work is evaluated By identifying the aesthetic principles and narrative strategies underlying their work the book reassesses their achievement in creating new forms of modernism with an unmistakable political momentum This book was published as a special issue of Word Image *Learning Directory*, 1970 *New York Magazine*, 1984-11-26 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea *Of 'truths Impossible to Put in Words'* Rose-Carol Washton Long, 2009 This volume of essays relate Max Beckmann's work to the tangible circumstances of its production and reception The essays contextualise aspects of Beckmann's early middle and late career by way of detailed reference to contemporary

music film philosophy theatre history sports and exile *German Expressionism* Museum of Modern Art (New York, N.Y.), Starr Figura, Peter Jelavich, 2011 Catalog of an exhibition held at the Museum of Modern Art New York Mar 27 July 11 2011 *Modern Painting, Drawing & Sculpture* Louise Pulitzer, 1958 **Visual proficiency - A perspective on art education** Kunibert Bering, Rolf Niehoff, 2015-12-18 Every day over a million images are uploaded to flickr This is a striking example of the so called flood of images that emerged with the beginning of the digital age A generation of adolescents has already been socialised with this flood of images and deals with it on a daily basis both in their networks and elsewhere Art education thus faces significant challenges art is the only school subject that deals with the problems inherent in images as images making them the focus of pedagogic activity This volume presents both the foundations for engaging with the phenomenon of the image in a competent and historically informed manner as well as the perspectives for art education that arise from these foundations It is based upon the conviction that providing orientation in a world defined by images does not mean following solely a technocratic functionalist or even neoliberal concept of education Quite the contrary providing an orientation for how to deal with images in a world that is dominated by them is a crucial part of the holistic development of young people s personalities The volume s main focus lies upon the new functions taken on both by the image and by art more generally It takes into account aspects of globalisation and participation and also includes more unusual views often from a cross media perspective of art and its historical repertory which even current image creation is unable to dispense with The volume also deals extensively with architecture and the images it conveys
