The Field Guide to Mixing Social and Biophysical Methods in Environmental Research Rebecca Lave, Stuart Lane, 2025-02-25 Despite ongoing debates about its origins the Anthropocene a new epoch characterized by significant human impact on the Earth's geology and ecosystems is widely acknowledged Our environment is increasingly a product of interacting biophysical and social forces shaped by climate change colonial legacies gender norms hydrological processes and more Understanding these intricate interactions requires a mixed methods approach that combines qualitative and quantitative biophysical and social research However mixed methods environmental research remains rare hindered by academic boundaries limited training and the challenges of interdisciplinary collaboration Time funding and the integration of diverse data further complicate this research whilst the dynamics and ethics of interdisciplinary teams add another layer of complexity Despite these challenges mixed methods research offers a more robust and ultimately transformative understanding of environmental questions This Field Guide aims to inspire and equip researchers to undertake such studies Organized like a recipe book it assists researchers in the preparation of their field work as well as offering entry points to key methods and providing examples of successful mixed methods projects This book will be of interest to scholars wishing to tackle environmental research in a more holistic manner spanning sister disciplines such as anthropology statistics political science public health archaeology geography history ecology and Earth science

A Field Guide to Cross-Cultural Research on Childhood Learning Sheina

Lew-Levy, Stephen Asatsa, 2025-05-09 This volume addresses the critical gaps in developmental research on childhood learning by advocating for a more inclusive and cross cultural approach Recent studies highlight a concerning over reliance on data from post industrialized western countries raising questions about the broader applicability of findings This book seeks to provide a comprehensive solution bridging the gap between theory and practice It offers a unique guide for researchers by combining interdisciplinary perspectives from anthropology psychology education and beyond With over 60 contributors from 21 countries the book weaves together diverse cultural insights challenging the narrow scope of traditional research Each chapter features multiple perspectives creating a coherent and thoughtful discussion of essential topics such as cultural learning childhood and the historical and social forces shaping development A Field Guide to Cross Cultural Research on Childhood Learning goes beyond theoretical discussions by offering practical advice on fieldwork ethics and

engaging policymakers By centering marginalized voices and emphasizing community agency it strives to democratize developmental research The format is innovative merging the breadth of encyclopedic entries with the depth of cohesive chapters Moreover personal reflections and photographs embedded in the book will give readers a window into the experiences of those involved in cross cultural research on children This accessible academically rigorous volume is a must read for scholars seeking to advance inclusive and sustainable research on childhood learning and anybody interested in child development in a worldwide perspective
