Hearing on School-to-work Transition United States. Congress. House. Committee on Education and Labor. Subcommittee on Elementary, Secondary, and Vocational Education, 1994 This congressional hearing on reauthorization of the Elementary and Secondary Education Act concentrates on school to work transition Testimony includes statements and prepared statements letters and supplemental materials from Representatives in Congress and individuals representing the following Flint Roundtable Michigan Genesee Area Focus Council Flint Michigan Glatfelter Insurance Group School District of the City of York Pennsylvania George C Marshall High School Fairfax Virginia National Association of State Councils on Vocational Education National Association of School Psychologists and National Coalition for Advanced Manufacturing YLB

Environmental Problem Solving Jeffrey W. Hughes, 2013-08-02 As environmental problems become increasingly complex it is critical that students and activists learn the skills with which to address them Although there already are many case studies of actual issues only in the last few years have environmental scientists paid close attention to their resolution Environmental Problem Solving teaches these skills Jeffrey W Hughes creates an organized method for approaching problems understanding larger issues and crafting solutions to a wide range of contemporary environmental issues Many environmental activists often have preconceived ideas of environmental protection and problem solving They react emotionally to news of deforestation a new housing development or a planned big box store without thinking about the problem logically and they may automatically regard foresters development companies and corporations as opponents As their views harden discourse turns acrimonious and it becomes ever more difficult to find satisfactory solutions This book teaches those on both sides of the table to address their own preconceptions and approach hard issues critically methodically and fairly Hughes combines aspects of the decision making process from the fields of business management and communication science based on extensive research and ample practical experience in the field and classroom He creates a logical framework to help guide thinking from identifying a problem to finding its solution Using examples drawn from real life situations Environmental Problem Solving will become an invaluable guide for
