

Chapter 15 Notes

"What Is Freedom?"

Reconstruction

- The era of reconstruction that followed the civil war
- The black leaders brought out of slavery a clear definition of freedom, asked what he understood by slavery
 - It meant one person's "receiving by irresistible power the work of another man, and not by his consent"
- Freedom he defined as "placing us where we could reap the fruit of own labor, and take care of ourselves"
- To have land and turn it and till it by our own labor. Frazier insisted that blacks possessed "sufficient intelligence" to maintain themselves in freedom and enjoy the equal protection of the laws
- Following the civil war, former slaves and their white allies, north and south, would seek to redefine the meaning and boundaries of american freedom
 - Freedom would be expanded to include black americans. The laws and constitution would be rewritten to guarantee african-americans, for the first time in the Nations history, recognition as citizens and equality before the law
 - Granted to vote, black schools, churches, etc
- Special Field order 15
 - This set aside the sea islands and large area along the south carolina and georgia coasts for the settlement of black families on forty-acre plots of land
 - Also offered them broken-down mules that the army could no longer use

The Meaning Of Freedom

- With the end of the civil war, the united states was a "New nation" for the first time, "wholly free" the destruction of slavery, however, made the definition of freedom the central question on the nation's agenda
 - Did freedom mean simply the absence of slavery, or did it imply other rights for the former slaves, and if so, which ones:
 - Equal civil rights
 - The vote
 - Ownership of property
