Samuel,2015-11
American history is ubiquitous underscoring everything from food to travel to architecture and design It is also emotionally

charged frequently crossing paths with political and legal issues In Remembering America Lawrence R Samuel examines the place that American history has occupied within education and popular culture and how it has continually shaped and reflected our cultural values and national identity The story of American history Samuel explains is not a straight line but rather one filled with twists and turns and ups and downs its narrative path as winding as that of the United States as a whole Organized around six distinct eras of American history ranging from the 1920s to the present Samuel shows that our understanding of American history has often generated struggle and contention as ideologically opposed groups battled over ownership of the past As women and minorities gained greater power and a louder voice in the national conversation our perspectives on American history became significantly more multicultural bringing race gender and class issues to the forefront These new interpretations of our history helped to reshape our identity on both a national and an individual level Samuel argues that the fight for ownership of our past combined with how those owners have imparted history to our youth crucially affects who we are Our interpretation and expression of our country s past reflects how that self identity has changed over the last one hundred years and created a strong sense of our collective history one of the few things Americans all have in common American Literature (Student) James Stobaugh,2012-12-13 The rich curriculum s content is infused with critical thinking skills and an easy to use teacher s guide outlines student objectives with each chapter providing the answers to the assignments and weekly exercises The final lesson of the week includes both the exam covering insights on the week s chapter as well as essays developed through the course of that week s study chosen by the educator and student to personalize the coursework for the individual learner
