

Grade 5

FCAT 2.0 Science

Sample Answers

This booklet contains answers to the FCAT 2.0 Science sample questions, as well as explanations for the correct answers and rationales for the incorrect answers (distractor rationales). It also gives the Next Generation Sunshine State Standards (NGSSS) benchmark assessed by each item. In February 2008, the State Board of Education adopted updated benchmarks. These new benchmarks are included in this booklet to provide teachers with additional information. For more information, follow this link to the NGSSS website: <http://www.floridastandards.org/index.aspx>.

Multiple-choice items in FCAT 2.0 Science tests are scored by awarding one point for each correct answer.

The intent of these sample test materials is to orient teachers and students to the types of questions on FCAT 2.0 tests. By using these materials, students will become familiar with the types of items and response formats that they will see on the actual test. The sample questions and answers are not intended to demonstrate the length of the actual test, nor should student responses be used as an indicator of student performance on the actual test. Additional information about test items can be found in the *FCAT 2.0 Test Item Specifications* at <http://fcat.fldoe.org/fcat2/itemspecs.asp>.

The sample questions for students and the sample answers for teachers are only available online, at <http://fcat.fldoe.org/fcat2/fcatitem.asp>.

Reading Interventions for the Improvement of the Reading Performances of Bilingual and Bi-Dialectal Children Dr. Afra Johnson, 2015-10-29 The book explores the remedial pedagogy applied during intervention designed to improve the students metacognitive processes of learning new English language knowledge. Today's globalization and technology on social behaviors demand that school age students acquire reading skills by the use of audio visual practices. The linguistic integrations during the intervention processes combined with direct instruction produced an individualized awareness of improvements in comprehension. Each student cognitively processed the audio input and visual text. My findings were related to the cultural practices of ESOL and ELL students to counteract the mismatch between home and school language frameworks. This type of technique encourages students to use the concepts of the English language related to what they hear, read and speak within and outside of the school environment. **Excelling on the FCAT: Standards of Excellence** ,
