Futureproofing Engineering Education for Global Responsibility Michael E. Auer, Tiia Rützmann, 2025-03-20 This book contains papers in the fields of Collaborative learning Digital transition in education AI and learning analytics in engineering education Diversity in engineering education The authors are currently witnessing a significant transformation in the development of education on all levels and especially in post secondary and higher education To face these challenges higher education must find innovative and effective ways to respond in a proper way Changes have been made in the way we teach and learn including the massive use of new means of communication such as videoconferencing and other technological tools Moreover the current explosion of artificial intelligence tools is challenging teaching practices maintained for centuries Scientifically based statements as well as excellent best practice examples are necessary for effective teaching and learning engineering The 27th International Conference on Interactive Collaborative Learning ICL2024 and 53rd Conference of International Society for Engineering

Pedagogy IGIP which took place in Tallinn Estonia between 24 and 27 September 2024 was the perfect place where current trends in higher education were presented and discussed IGIP conferences have been held since 1972 on research results and best practices in teaching and learning from the point of view of engineering pedagogy science ICL conferences have been held since 1998 being devoted to new approaches in learning with a focus on collaborative learning in Higher Education Nowadays the ICL conferences are a forum of the exchange of relevant trends and research results as well as the presentation of practical experiences in learning and Engineering Pedagogy In this way the authors try to bridge the gap between pure scientific research and the everyday work of educators Interested readership includes policymakers academics educators researchers in pedagogy and learning theory schoolteachers learning industry further and continuing education lecturers etc

Family Oral History Across the World Mary Louise Contini Gordon, 2023-11-30 Family Oral History Across the World presents a process for memorializing family histories bringing together established oral history standards exploratory research and narrative data analysis Based on and using a prequestionnaire and over 40 recorded interviews with people from across six continents the analysis system used in the book presents material from these interviews that brings alive the experience of the family history journey One of the guiding principles is to encourage readers to interview family members but also others outside the family unit and to produce a family history in whatever format works The book illustrates this through the inclusion of many unusual formats and stories uncovered The book is divided into a number of themes that emerged through the analysis of numerical questionnaire and narrative interview data Parts I II and III cover changing family demography case studies and factors such as memory emotion and ethics Part IV offers a pliable process and practice guide with input and examples from interviews It also discusses developing approaches to presenting oral histories from both oral historians and other interviewers and writers such as journalists With case studies as well as example guidelines and templates this volume is ideal both for academics interested in family history as well as professional genealogists and families themselves
