Language-A Singer's Approach To Fluency Gerald White, 2020-02-29 This book is a very basic introduction to music theory from a singer's standpoint Because singers are often required to read music on the job this moves past the roadblocks and cuts through the unnecessary steps to quickly access the fundamentals and have the singer learn to sightread based on the number system The emphasis is on scale placement which in turn trains the ear to recognize intervals Muscle memory is also addressed and there are exercises listed to develop this particular method of sight reading Edexcel AS Music

Revision Guide Alistair Wightman, 2016-07-09 This Edexcel AS Music Revision Guide is the perfect preparation for students taking AS Music exams Designed for the 2016 exams Written in a clear and concise manner by an experienced examiner and teacher it includes A summary of the musical terminology you'll be expected to know for the exam A succinct revision section that presents all the key facts for each set work broken down into individual segments on the elements of music Sample essay questions mark schemes and answers Helpful hints on how to improve your own written answers in the exam A comprehensive glossary This guide will help you to understand how the exam works how questions are worded and what your examiners are looking for giving you the edge you need to achieve a better grade Educational Encounters: Nordic

Studies in Early Childhood Didactics Niklas Pramling, Ingrid Pramling Samuelsson, 2011-08-10 Qualitative analyses of young children's learning in natural settings are rare so this new book will make educators sit up and pay attention It lays out a Nordic or continental European teaching and learning paradigm whose didactic framework is distinct from the Anglo American system This analysis which features contributions and case studies from researchers in a range of subjects is built on principles such as the learner's perspective establishing sufficient intersubjectivity pointing out and informing experience linguistically After clarifying some historical background the book discusses the contemporary emphasis in early childhood education on pedagogy learning What should didactics mean in educating young children The book examines the opportunities for learning that teachers provide for children in early childhood education as well as how children respond to these opportunities It presents empirical studies from a variety of naturalistic settings including mathematics making visual art ecology music dance literacy and story telling as well as learning about gender morality and democracy The authors seek to answer key questions about the processes involved in both teaching and learning What challenges do teachers face as they try to expand children's knowledge in various fields of learning How do they respond to these challenges and what can we learn about children's corresponding uptake What now requires further research One key distinction in researching children's learning is between studies that look at process and those that analyze product In the tradition of Piaget Vygotsky and Werner as well as Mercer and Valsiner's more recent work this book advocates the importance and relative rareness of the
