 showing children the importance of environmental issues and teaching them the skills to take action In past years teaching
 children about conservation and environmental issues might have been an optional side topic to complement an earth science
 curriculum but in today s educational climate being green is a subject with great relevance and importance This book
 combines a wide variety of techniques to help students understand environmental issues and gain the skills needed to take
 action The children s literature and classroom activities suggested in Think Green Take Action Books and Activities for Kids
 are appropriate for elementary school students from grades three through seven covering three major environmental issues

endangered species resource depletion and pollution After students have a grasp of the causes of these environmental problems the final chapter presents ways to take easy action that can create ripples of change across the world Educators in museums and nature centers home schooled children and their parents comprise an appropriate secondary audience for this instructive text
