10 Zimsec Economics Paper 1:

Economic Management in a Hyperinflationary Environment George Kararach, Raphael O. Otieno, 2016 This volume provides a political economy analysis of leadership and economic management in crises in developing economies based on Zimbabwe's experience *Studies in the Economic History of Southern Africa* Z.A. Konczacki, Jane L. Parpart, Timothy M. Shaw, 2016-04-15 First Published in 1990 Routledge is an imprint of Taylor Francis an informa company **Uneven Zimbabwe** Patrick Bond, 1998 Uneven Zimbabwe examines the influence of domestic and international financial markets and financiers in uneven development in Zimbabwe using and contributing to the tools of radical political economy Theoretically Bond begins with criticism of the classical Marxist concepts of finance capital for focusing on institutional characteristics and failing to grasp underlying dynamics Instead as economic crisis tendencies emerge the power of finance periodically intensifies temporarily displacing crisis through time and space and across geographical scales But the limits of the financial solution become evident when paper assets delink from the productive assets they are meant to represent as well as in the role that finance plays in amplifying uneven development across different economic sectors spaces and scales

paints a more complex picture examining the role and effect of digital activism in challenging state hegemony in authoritarian contexts The book notes that while communication technologies help mediate activism they are also simultaneously constrained by pre existing and emergent challenges tied to the social and political context and the inherent limitations of those technologies The book investigates the tactics used by digital activists the contextual factors and restrictive political environment they operate in including the role of pro government activists and ultimately the impact of digital activism given these constraints From the case of Zimbabwe the book builds out a broader theoretical analysis of the evolution of third world protest in the digital age examining the limitations of activists actions and the ideological deficit in online activism to ferment a virulent counter hegemony
