Software Testing in the Cloud: Perspectives on an Emerging Discipline Tilley, Scott, Parveen, Tauhida, 2012-11-30 In recent years cloud computing has gained a significant amount of attention by providing more flexible ways to store applications remotely. With software testing continuing to be an important part of the software engineering life cycle, the emergence of software testing in the cloud has the potential to change the way software testing is performed. *Software Testing in the Cloud: Perspectives on an Emerging Discipline* is a comprehensive collection of research by leading experts in the field, providing an overview of cloud computing and current issues in software testing and system migration. Deserving the attention of researchers, practitioners, and managers, this book aims to raise awareness about this new field of study.

Stern's Guide To European Riverboats And Hotel Barges Steven B. Stern, 2014-04-15 This comprehensive guide lists descriptive information for every European riverboat and hotel barge, including vital statistics, stateroom size, descriptions of public areas, dining, and shipboard facilities, and itineraries. Each vessel is evaluated as to comfort and luxury. Hundreds of photos of the vessels' exterior and interiors are included, as well as sample menus and daily programs. Several chapters are devoted to descriptions of the cities and villages visited by riverboats and the regions and villages visited by hotel barges, along with descriptive photographs.

Ecclesial Futures: Volume 1, Issue 2 Nigel Rooms, Steve Taylor, 2020-12-24 *Ecclesial Futures* publishes original research and theological reflection on the development and transformation of local Christian communities and the systems that support them as they join in the mission of God in the world. We understand local Christian communities broadly to include traditional parish churches and independent local churches, religious communities and congregations, new church plants, so-called fresh expressions of church, emergent churches, and new monastic communities. We are an international and ecumenical journal with an interdisciplinary understanding of our approach to theological research and reflection, the core disciplines being theology, missiology, and ecclesiology. Other social science and theological disciplines may be helpful in supporting the holistic nature of any research, e.g., anthropology and ethnography, sociology, statistical research, biblical studies, leadership studies, and adult learning. The journal fills an important reflective space between the academy and on-the-ground practice within the field of mission studies, ecclesiology, and the so-called missional church. This opportunity for engagement has emerged in the last twenty or so years, from a turn to the local and the local church and in the western world at least from the demise of Christendom and a rapidly changing world which also affects the church globally. The audience for the journal is truly global wherever the local church and the systems that support them exist. We expect to generate interest from readers in church judicatory bodies, theological seminaries, university theology departments, and in local churches from all God's people and the leaders amongst them.
