Mr. Rohit Manglik

2011 Journal Impact Factor:

Fundamentals of Research. A Dissective View Priyanka Tripathy, Pradip Kumar Tripathy, 2017-02 The present book has been written with two clear objectives in mind to enable researchers irrespective of their discipline to develop the most appropriate methodology for their research studies and to make them familiar with the art of using different research methods and techniques It is hoped that the humble efforts made in the form of this book will assist in the accomplishment of exploratory as well as result oriented research studies The book is primarily targeted to serve as text book to Post Graduate M Phil and Ph d students of research methodology in all disciplines of various universities The book seems to be designed specifically for those students who are newcomers to research and who may have a basic barrier with regard to the subject The areas covered in the book follow a simple to complex approach in terms of their discussion Overall this book clearly reflects the teaching experience of the author with this subject The book can be of value to researchers by introducing some information on how to carry out reviews of literature and its importance in research All possible efforts have been made to further enhance the usefulness of the book The feedback received from different sources has been incorporated

Research Fundamentals Mr. Rohit Manglik, 2023-06-23 Introduces research principles including hypothesis formulation data collection and analysis Covers experimental and non experimental methods for scientific inquiry *Know your Orthopaedics* Dr. Imran Sajid , Dr. Sukhvinder Singh Basran, 2015-12-05 This book is essential while preparing for the theory examination of orthopaedics The book has been presented in such a manner that important and difficult past questions have been written in simpler and reproducible format Authenticity of the answers has been maintained by giving as many references as possible The book also gives long case sheet format that gives a scheme about how to write the long cases Numerous diagrams and profuse illustrations further enhance the quality of the book An absolute must for orthopaedic residents appearing for exams **Issues in Informing Science & Information Technology, Volume 9 (2012)** Eli B. Cohen, 2012 **Journal of International Students, 2021 Vol. 11 No. 1** Krishna Bista, 2021-01-15 We invite you to explore the 11 1 issue of the Journal of International Students featuring authors and research focused on Brazil Canada China Indonesia Japan Philippines Turkey and the United States The cover art designed by graduate student Tyler Miller Gordon shows hands collated and interconnected in an unwinding fashion displaying a spectrum of skin color a mix of light and shadow and the word hope in 100 languages to reflect solidarity with global social movements addressing systemic racism and socioeconomic inequalities **How to Get Published in the Best Entrepreneurship Journals** Alain Fayolle, Mike Wright, 2014-01-31 Competition to publish in the top journals is fierce This book provides entrepreneurship researchers with relevant material and insights to support them in their efforts to publish their research in the most prestigious entrepreneurship outlets a Academic Capitalism Richard Münch, 2014-04-16 This book investigates the intensifying struggle for excellence between universities in a globalized academic field The rise of the entrepreneurial university and

academic capitalism are superimposing themselves on the competition of scientists for progress of knowledge and recognition by the scientific community The result is a sharpening institutional stratification of the field This stratification is produced and continuously reproduced by the intensified struggle for funds with the shrinking of block grants and the growing significance of competitive funding as well as the increasing impact of international and national rankings on academic research and teaching The increased allocation of funds on the basis of performance leads to overinvestment of resources at the small top and underinvestment for the broad mass of universities in the middle and lower ranks There is a curvilinear inverted u shaped relationship of investments and returns in terms of knowledge production Paradoxically the intrusion of the economic logic and measures of managerial controlling into the academic field imply increasing inefficiency in the allocation of resources to universities The top institutions suffer from overinvestment the rank and file institutions from underinvestment The economic inefficiency is accompanied by a shrinking potential for renewal and open knowledge evolution

Geographies of Knowledge and Power Peter Meusburger, Derek Gregory, Laura Suarsana, 2015-06-24 Interest in relations between knowledge power and space has a long tradition in a range of disciplines but it was reinvigorated in the last two decades through critical engagement with Foucault and Gramsci This volume focuses on relations between knowledge and power It shows why space is fundamental in any exercise of power and explains which roles various types of knowledge play in the acquisition support and legitimization of power Topics include the control and manipulation of knowledge through centers of power in historical contexts the geopolitics of knowledge about world politics media control in twentieth century cartography in modern war the power of words the changing face of Islamic authority and the role of Millennialism in the United States This book offers insights from disciplines such as geography anthropology scientific theology Assyriology and communication science

A Survey of Core Research in Information Systems Anna Sidorova, Nicholas Evangelopoulos, Russell Torres, Vess Johnson, 2013-03-29 The Information Systems IS discipline was founded on the intersection of computer science and organizational sciences and produced a rich body of research on topics ranging from database design and the strategic role of IT to website design and online consumer behavior In this book the authors provide an introduction to the discipline its development and the structure of IS research at a level that is appropriate for emerging and current IS scholars Guided by a bibliometric study of all research articles published in eight premier IS research journals over a 20 year period the authors identify and present the top 51 IS research topics For each topic they provide a brief overview time trends and references to related influential research works The topics are organized into an IS research framework that includes research on the IT artifact and IS development IT and organizations IT and individuals IT and markets and IT for teamwork and collaboration

Heat Transfer Phenomena and Applications Salim Newaz Kazi, 2012-10-24 Heat transfer calculations in different aspects of engineering applications are essential to aid engineering design of heat exchanging equipment Minimizing of computational time is a challenging task faced by

researchers and users Methodology of calculations in some application areas are incorporated in this book such as differential analysis of heat recoveries with CFD in a tube bank heating and ventilation of equipment and methods for analytical solution of nonlinear problems Numerical analysis is the prerequisite of design and for the manufacture of heat exchanging equipment Some numerical and experimental information are presented with utmost skill Similarly the analytical solution of heat transfer is touched in this book Study of heat transfer phenomena and applications are equally emphasized in this issue
