Hazardous Materials Compliance for Public Research Organizations Nicolas A. Valcik, 2013-02-15 Completely revised and updated Hazardous Materials Compliance for Public Research Organizations A Case Study Second Edition presents a case study of one university's policies and practices with regard to the procurement, use, storage and disposal of HAZMAT in the context of a changing internal structure and regulatory environment. The author's presentation is not hindered by using interviews, archival documentation and unobtrusive observations as a participant where the research institution was at times noncompliant with the new federal guidelines. See What's New in the Second Edition Incorporates issues with all types of hazardous materials instead of just focusing on biological HAZMAT Updated information on current regulations on HAZMAT in relation to universities and research centers Follow up on the case study university disclosing the university's progress in resolving the security and safety shortcomings By implementing key improvements in safety and security the universities can also more easily obtain research grant money and satisfy both state and federal safety requirements This book includes recommendations to improve safety while using and storing biotoxins, chemical, radioactive material and industrial waste and to improve overall security at the university It also highlights improvements that can make the environment a safer and more secure location to perform biological research

Digital Records, Heritage Conservation and Post-earthquake Re-construction in Chile Bernadette Devilat L., 2025-05-30 The conservation of built heritage implies constant intervention. One form of intervention is reconstruction which in the context of disasters usually tries to bring buildings and places back to their previous state and is contested in heritage discourses. This book challenges reconstruction as a replica to physically preserve damaged built heritage by critically examining a context of constant change resulting from earthquakes. Chile advocating for the digital record to be an analytical basis for design following the principles embedded in historical domestic architecture. Beyond monumental heritage the focus is on the living heritage of the historical settlements of Tarapacá, Ziguila and Lolol built with local resources and sustainable techniques. The book proposes reconstruction as an alternative methodology based on 3D laser scanning, photography and questionnaires to analyse the as-built condition of earthquake affected buildings, consider risk mitigation and recognise adaptation to earthquakes and subsequent reconstructions. This is relevant for seismic prone areas and built heritage at risk in general. This book is aimed at researchers, academics and practitioners in architectural conservation and is also a valuable resource for authorities and stakeholders involved in post earthquake scenarios.

Federal Register, 2013-02 *Langue commune, cultures distinctes : Les illusions du Globish* Geneviève Tréguer-Felten, 2018-09-12 T00:00:00-04:00 L'auteure de cet ouvrage nous emmène au cœur des entreprises dans cet univers où règne un anglais que tous n'entendent pas de manière identique tant ils l'investissent des caractéristiques propres à leurs langues maternelles ou leurs contextes culturels respectifs. En s'appuyant sur des situations concrètes, courriels qui jalonnent le quotidien des acteurs, changes, sites web, filiales ou communication de l'entreprise.

auteure montre que la maîtrise de la langue commune cet anglais qui sert de lingua franca n'est que marginalement responsable des dérives de la communication interculturelle celles-ci tiennent la tendance naturelle de chacun des interlocuteurs d'entendre les mots ou les situations vécues dans sa langue maternelle et son propre contexte culturel L'originalité de l'ouvrage tient au fait que l'auteure ne se contente pas de mettre en lumière l'origine de ces dysfonctionnements elle donne aussi les clés de lecture et de compréhension dont pourront tirer profit tous ceux qui ont cœur de réussir leur communication interculturelle
