is argued that whilst Rome would eventually rise to political and cultural dominance the archaeological evidence does not encourage us to view Rome as a significant factor in the development of theatre in Italy until at least the end of the first century BCE and the construction of the Theatre of Pompey Our attention is directed instead to other cities in the Italian peninsula during the third and second centuries BCE which have hitherto been greatly overshadowed by imperialistic narratives of Roman cultural development **Digest; Review of Reviews Incorporating Literary Digest** ,1899
