Andree S Balloon Expedition In Search Of The North Pole 1898:

Andrée's Balloon Expedition in Search of the North Pole Henri Lachambre, Alexis Machuron, 2016-09-06 In the 21st century the age of the budget airline where quick and reliable air travel is available to a large segment of society it seems hard to comprehend that it is less than 250 years since the first human took to the skies Although the wing of the bird seemed like the most obvious natural mechanism to attempt replicate it was actually contained hot air as demonstrated by the Montgolfiers and their balloon that gave birth to the era human aviation Since the first manned balloon flight in 1783 developments have come thick and fast the airship the aeroplane and finally the space shuttle This reprint of a classic publication by Henri Lachambre and Alexis Machuron tells the story of S A Andr e s 1897 attempt to reach the North Pole by hydrogen balloon Complete with illustrations and a brand new introduction this work is a fascinating read for anyone with an interest in the fantastic and majestic lighter than air period of aeronautical history **General Catalogue of the Public**

J. Capelotti, 2016-05-06 In Gilded Age America Arctic explorers were fabulous celebrities assured of riches and near immortality so long as they reached the North Pole first Of the many attempts to meet that goal three American expeditions launched from the Russian archipelago of Franz Josef Land ended in abject failure their exploits consigned to near oblivion Even so these ventures the Wellman expedition 1898 99 the Baldwin Ziegler 1901 2 and the Fiala Ziegler 1903 5 have much to tell us about the personalities politics and economics of exploration in their day In *The Greatest Show in the Arctic* the first book to chronicle all three expeditions P J Capelotti explores what went right and what in the end went tragically wrong The cast of colorful characters from the Franz Josef Land forays included Walter Wellman a Chicago journalist and bon vivant running from debts his mistress and an illegitimate daughter Evelyn Briggs Baldwin a deranged meteorologist with a fetish for balloons and a passion for Swedish preserves and Anthony Fiala a pious photographer in search of God in the Arctic Featuring an international cast of supporting characters worthy of a three ring circus The

Greatest Show in the Arctic follows each of the three expeditions in turn from spectacular feats of financing to their bitter ends Along the way the explorers accumulated considerable geographic knowledge and left a legacy of place names Through close study of the expeditions journals Capelotti reveals that the Franz Josef Land endeavors foundered chiefly because of poor leadership and internal friction not for lack of funding as historians have previously suspected Presenting tales of noble intentions novel inventions and epic miscalculations The Greatest Show in the Arctic brings fresh life to a unique and underappreciated story of American exploration *Class List* Salem Public Library,1899 [Umberto Nobile And the Arctic Search for the Airship Italia](#) Garth Cameron,2017-09-09 By the time it was over eight of the crew and nine rescuers were dead and scores more had been put in harm s way The disappearance and search for the airship Italia was headline news all over the world for months after its last radio message on 25 May 1928 It had reported being to the north east of its base at Kings Bay on the Arctic island of Spitsbergen returning from a long flight to Greenland and the North Pole Ships aircraft and men from many countries converged on Kings Bay to participate in the rescue effort The Italian airship designer and pilot Umberto Nobile had flown to the North Pole and beyond in 1926 He resolved to return to the Arctic with a new airship in 1928 The expedition had geographical and scientific aims but the political environment was also an important motivator Benito Mussolini and his fascist party had come to power in 1922 and a successful expedition to the Arctic would be excellent propaganda **Bulletin** New Haven Free Public Library,1894 *The International Year-book* ,1899 [Newton Free Library Bulletin](#) Newton Free Library,1897 **The International Year Book** Frank Moore Colby,1899 **Our Library** Library Association (Portland, Or.),Library Association of Portland,1916 **The Franz Josef Land Archipelago** E.B. Baldwin,2015-01-27 Franz Josef Land is a forbidding place isolated by geography and history Lying above the Arctic Circle in the northernmost province of Russia this remote series of islands was only discovered by Westerners in 1873 and remains little known today A few intrepid explorers ventured there in the late 19th century as a stepping stone in attempts to reach the North Pole Chicago journalist Walter Wellman led the first American expedition to the archipelago as part of a polar expedition in 1898 1899 His second in command Evelyn Briggs Baldwin kept a journal documenting their trip This previously unpublished journal reveals much about one of the last great periods of exploration including the violence chicanery and racism that characterized much of American exploration and expansion Baldwin s journal reproduced here paints a more realistic picture of the expedition than did Wellman s communiques sent home for mass consumption Correspondence between Baldwin and Wellman is included and expedition notes list the supplies carried descriptions of geographic features observed in the course of the trip and the doctor s notes on treatments remedies and supplies Editor P J Capelotti provides an extended introduction and the text is illustrated with maps depictions of dramatic events occurring on the trip and several photographs [Exploring Polar Frontiers](#) William James Mills,2003-12-11 Covers the entire history of Arctic and Antarctic exploration from the voyage of Pytheas ca 325 B C to the present in one convenient comprehensive reference resource

Exploring Polar Frontiers A Historical Encyclopedia is the only reference work that provides a comprehensive history of polar exploration from the ancient period through the present day The author is a noted polar scholar and offers dramatic accounts of all major explorers and their expeditions together with separate exploration histories for specific islands regions and uncharted waters He presents a wealth of fascinating information under a variety of subject entries including methods of transport myths achievements and record breaking activities By approaching polar exploration biographically geographically and topically Mills reveals a number of intriguing connections between the various explorers their patrons and times and the process of discovery in all areas of the polar regions Furthermore he provides the reader with a clear understanding of the intellectual climate as well as the dominant social economic and political forces surrounding each expedition Readers will learn why the journeys were undertaken not just where when and how
