Understanding Singapore Politics (Second Edition) Bilveer Singh, 2021-08-23 Understanding Singapore Politics Second Edition aims to present a structural functional understanding of politics in Singapore This textbook provides a foundational knowledge of Singapore's politics by discussing key topics including the country's history political and party systems role of parastatal organisations nation building political leadership electoral politics hot button national issues and the role of Lee Kuan Yew in Singapore politics Recommended for anyone who has an interest or a stake in the island republic this introductory text provides insights on what drives shapes and influences Singapore's politics and explains the political behaviour of Singaporeans

Principles and Politics in Contemporary Britain Mark Garnett, 2013-10-28 This book shows the importance of political ideas in policy making and demonstrates the extent to which pragmatic considerations preclude the imposition of rigid ideological programmes It charts the decline of the postwar British consensus the changing face of both the Conservative and Labour parties under the long shadow of Thatcherism and the growing emergence of single issue policies such as environmentalism and feminism With an extensive bibliography and suggested seminar and essay topics Principles and Politics can be used on any course which focuses on contemporary British politics as well as having general appeal to those interested in looking at the contemporary political and ideological debate in the context of wider issues and trends This second edition is completely revised and updated

Greater China in an Era of Globalization Sujian Guo, Baogang Guo, 2010-01-01 China's growth in the past few decades has been unprecedented and continues to stay strong as it expands its influence around the globe However in many ways the once insular China is still looking to find its footing as an international player in the globalization game Greater China in an Era of Globalization looks at the success of China and its surrounding territories of Taiwan Hong Kong and Macau and asks the question What is Chinese globalization The contributors in this volume look to answer this question by examining China's role both in its immediate sphere of influence and in the greater world In doing so the contributors argue that its push to globalize has had as much effect on the country itself both politically and culturally as it has had on the world The contributors further the argument by analyzing China's influence on the rising nations in Africa and Latin America before ending the book with a comparative analysis between it and the historic rise and fall of influence of its European counterparts

The History of the European Union Wolfram Kaiser, Brigitte Leucht, Morten Rasmussen, 2008-09-05 This book radically re conceptualises the origins of the European Union as a trans and supranational polity as it emerged between the Schuman Plan of May 1950 and the first enlargement of the European Communities at the start of 1973 Drawing upon social science theories and debates as well as recent historical research Wolfram Kaiser and Morten Rasmussen in their introductory chapters discuss innovative ways of narrating the

history of the EU as the emergence of a transnational political society and supranational political system Building on these insights eight chapters based on multilateral and multi archival research follow each with case studies of transnational networks public sphere and institutional cultures and policy making which illustrate systematically related aspects of the early history of the EU In the concluding chapter leading political scientist Alex Warleigh Lack demonstrates how greater interdisciplinary cooperation especially between contemporary history and political studies can significantly advance our knowledge of the EU as a complex polity This book will be of interest to students and scholars of Politics European Studies and History

Innere Fuehrung Michael G. Lux, 2009-10 This study describes the inner design of military forces in a German democracy Innere Fuehrung in the face of new challenges Transformation and its various manifestations including EBAO and NCW NCO are contrasted with Innere Fuehrung Differences of contemporary NATO U S and German concepts are discussed and possible connection points for Innere Fuehrung are highlighted Some of the approaches examined are dominated by the extensive use of technology The analysis is focused on a possible contradiction between technology and Innere Fuehrung as an enabler of successful interagency cooperation The study concludes that Innere Fuehrung is a guiding principle based on the application of the German constitution the Basic Law to the reality of soldierly service In contrast to Transformation or RMA Innere Fuehrung emphasizes the human being as a citizen rather than technology as tools of war Innere Fuehrung constitutes the heart of the Bundeswehr's institutional culture and remains applicable in the present Citizens in uniform at home in the pluralism of state and society are best able to adapt to the security and defense challenges of the present in contrast to an exclusive military caste or an outsourced mercenary horde

A Fundamental Mistake Graham Cliff, 2012-06-01 Does it puzzle you that despite ever increasing rules controls and counter measures antisocial behaviour is seemingly spiralling out of control Why have there been riots in Britain Why is law enforcement failing to make our society a better place in which to live Have our politicians lost the plot Are our values wrong A Fundamental Mistake explains why a change of direction is needed in society's thinking about how to get people to behave themselves it also offers a carefully argued strategy by which to achieve this The emphasis needs to shift away from coercion and punishment and towards inducement and reward The remarkable thing is that although we already have the necessary knowledge it's not put to good use Taking a fresh approach Graham Cliff draws on mainstream behavioural psychology and applied ethics to make his case for challenging some of our time honoured cultural assumptions and practices Be prepared to re think your position Despite the weightiness of the subject this is a book for everyone because it works up from first principles in a readily readable way No expertise is needed to follow the flow from the basics of human nature to the way our minds work then through the web of customs and rules that make up society on to government laws and punishment and finally to how and why things might be done differently Nobody will agree with everything that A Fundamental Mistake has to say because that's what debate is all about However it's as well to remember this when it comes to tackling antisocial behaviour it's not
