Animals and Ethics - Third Edition Angus Taylor, 2009-05-27 Can animals be regarded as part of the moral community? To what extent, if at all, do they have moral rights? Are we wrong to eat them, hunt them, or use them for scientific research? Can animal liberation be squared with the environmental movement? Taylor traces the background of these debates from Aristotle to Darwin and sets out the views of numerous contemporary philosophers.

including Peter Singer Tom Regan Mary Anne Warren J Baird Callicott and Martha Nussbaum with ethical theories ranging from utilitarianism to eco feminism The new edition also includes provocative quotations from some of the major writers in the field As the final chapter insists animal ethics is more than just an academic question it is intimately connected both to our understanding of what it means to be human and to pressing current issues such as food shortages environmental degradation and climate change

Pet Politics Susan Hunter, Richard A. Brisbin, 2016-02-15 Although scholars in the disciplines of law psychology philosophy and sociology have published a considerable number of prescriptive normative and theoretical studies of animals in society Pet Politics presents the first study of the development of companion animal or pet law and policy in

Canada and the United States by political scientists The authors examine how people and governments classify three species of pets or companion animals cats dogs and horses for various degrees of legal protection They then detail how interest groups shape the agenda for companion animal legislation and regulation and the legislative and administrative formulation of anticruelty kennel licensing horse slaughter feral and roaming cat and breed ban policies Finally they examine the enforcement of these laws and policies by agencies and the courts Using an eclectic mix of original empirical data original case studies and interviews and relying on general theories and research about the policy process and the sociopolitical function of legality the authors illustrate that pet policy is a unique field of political struggle a conflict that originates from differing perspectives about whether pets are property or autonomous beings and clashing norms about the care of animals The result of the political struggle the authors argue is difficulty in the enactment of policies and especially in the implementation and enforcement of laws that might improve the welfare of companion animals

Why Animal Suffering Matters Andrew Linzey, 2013-11-01 How we treat animals arouses strong emotions Many people are repulsed by photographs of cruelty to animals and respond passionately to how we make animals suffer for food commerce and sport But is this as some argue a purely emotional issue Are there really no rational grounds for opposing our current treatment of animals In *Why Animal Suffering Matters* Andrew Linzey argues that when analyzed impartially the rational case for extending moral solicitude to all sentient beings is much stronger than many suppose Indeed Linzey shows that many of the justifications for inflicting animal suffering in fact provide grounds for protecting them Because animals the argument goes lack reason or souls or language harming them is not an offense Linzey suggests that just the opposite is true that the inability of animals to give or withhold consent their inability to represent their interests their moral innocence and their relative defenselessness all compel us not to harm them Andrew Linzey further shows that the arguments in favor of three controversial practices hunting with dogs fur farming and commercial sealing cannot withstand rational critique He considers the economic legal and political issues surrounding each of these practices appealing not to our emotions but to our reason and shows that they are rationally unsupportable and morally repugnant In this superbly argued and deeply engaging book Linzey pioneers a new theory about why animal suffering matters maintaining that sentient animals like infants and young children should be accorded a special moral status
