Citizen Crime Reporting Projects Leonard Bickman, 1977 Police Ethics Louise Westmarland, 2025-05-12 This book is an important analysis of how police themselves define and respond to police corruption and wrongdoing It offers special insights into this hard to research issue because it is based on using similar techniques of study on samples of police over time and in different jurisdictions all linked by an autoethnographic account by Professor Westmarland an internationally celebrated expert on the topic narrating her engagement with the problems of police corruption and culture This provides a revealing account of variations over time and between places Clearly and engagingly written this is essential reading for students scholars practitioners and policy makers concerned about policing and its legitimacy Robert Reiner Emeritus Professor of Criminology LSE This is a lively and fascinating book which places our understanding of policing ethics integrity and police corruption within a long term timeline The author traces how a particular research technique within policing studies the use of scenario based surveys of police officers to test officers attitudes to the seriousness of a series of possible forms of police misconduct and their willingness to report those forms to others has been utilised in policing research over a 50 plus year history It begins with US based pioneering policing research in the 1970s and takes us through the use of and lessons learnt by scenario based research in later decades in the UK and internationally This includes by way of an autoethnography the author s own critical research over the past 20 years revisiting some earlier published research on the theme This book is essential reading for those studying police integrity and corruption and the wider field of police cultures Professor Steve Savage Emeritus Professor of Criminology University of Portsmouth This book outlines over 20 years of in depth research on police culture and the blue code of silence which is said to protect and perpetuate police misconduct It discusses the existing literature and draws upon first hand research with many serving police officers and some police support staff These studies not only provide evidence of the police code but are also useful for examining why and how to prevent its ill effects A recent post 1950s history of police cultural research which concentrates on ethics and integrity is provided with reflections on change and a discussion of the College of Policing s introduction of a code of ethics in 2014 It asks whether anything has changed but mainly analyses the individual studies and what the potential lessons learnt are from the various scandals that have come to light The questionnaires and research instruments used are included in the text for replication purposes and alongside this the ethics of such studies are discussed This book will speak to police officers including those enrolled on police degrees policing scholars and students and criminologists Louise Westmarland is Professor of Criminology at The Open University UK **Rape and Its Victims** United States. Department of Justice, 1975 *FBI Law Enforcement Bulletin* , 2010 *Justice, Crime, and Citizenship in Eurasia* Erica Marat, Lauren A. McCarthy, 2022-08-18 What role does law play in post communist societies This book examines the law as a social institution in Eurasia exploring how it is shaped in everyday interactions between state and society organisations and individuals and between law enforcement and

other government entities It bridges the gap between theoretically rich work on law in action and the empirical reality of Eurasia The contributions in this volume include research on policing the legal profession public attitudes towards law regime support and oppositional mobilisation crime policy and property rights among others The studies shift away from the common perception that in Eurasia the law exists only as a tool for the state to enforce order and suppress dissent Instead they show through empirical analyses that citizens evade use reinterpret and shape the law even in authoritarian contexts sometimes containing state violence and challenging the regime and other times reinforcing state capture from below The chapters in this book were originally published as a special issue of the journal *Europe Asia Studies*
