Mathematics, 1969 The Ontology of Spacetime II, 2008-06-17 The sixteen papers collected in this volume are
expanded and revised versions of talks delivered at the Second International Conference on the Ontology of Spacetime
organized by the International Society for the Advanced Study of Spacetime John Earman President at Concordia University
Montreal from 9 to 11 June 2006 Most chapters are devoted to subjects directly relating to the ontology of spacetime The
book starts with four papers that discuss the ontological status of spacetime and the processes occurring in it from a point of
view that is first of all conceptual and philosophical The focus then slightly shifts in the five papers that follow to
considerations more directly involving technical considerations from relativity theory After this Time Becoming and Change
take centre stage in the next five papers The book ends with two excursions into relatively uncharted territory a
consideration of the status of Kaluza Klein theory and an investigation of possible relations between the nature of spacetime
and condensed matter physics respectively Space and time in present day physics and philosophy Relatively low level of
technicality easily accessible Introduction from scratch of the debates surrounding time Broad spectrum of approaches
