A Wrinkle in Time Study Guide

Chapter 1

Describe the kind of student Meg is and how she acts at school.

She does not do well in school and it is a struggle for her. It's surprising that she's a poor student since both of her parents are very smart. She also roughhouses and gets into fights which gets her into trouble.

What rumor did Meg hear when she went to the post office?

She heard that there's a tramp on the loose who is stealing from people.

Why do people say Charles Wallace is stupid?

He doesn't talk in public and this causes people to think he is incapable of speech.

What is the difference between Sandy and Denysé when compared to Meg and Charles Wallace?

The twins are much more conventional and are considered "normal" from others in their community where Meg and Charles Wallace are seen as strange compared to other children of their ages.

How does Charles Wallace describe Mrs. Whatsit after Mrs. Murry and Meg ask about her?

He says that she lives in the old abandoned house (that is rumored to be haunted) with her two friends.

Where is Mr. Murry?

We don't know at the moment, but he has been away/traveling for some time now.

How does Mrs. Whatsit look when she arrives at the Murry house?

She is so bundled up that it is impossible to see what she looks like at first.

What surprises Mrs. Murry at the very end of the chapter?

Mrs. Whatsit tells her that there is such thing as a tessieract.

Literacy and Learning in the Content Areas Sharon Kane, 2017-07-05 The 3rd Edition of *Literacy Learning in the Content Areas* helps readers build the knowledge, motivation, tools and confidence they need as they integrate literacy into their middle and high school content area classrooms. Its unique approach to teaching content area literacy actively engages preservice and practicing teachers in reading and writing and the very activities that they will use to teach literacy to their own students in middle and high school classrooms. Rather than passively learning about strategies for incorporating content area literacy activities, readers get hands-on experience in such techniques as mapping, webbing, anticipation guides, booktalks, class websites and journal writing and reflection. Readers also learn how to integrate children's and young adult literature, primary sources, biographies, essays, poetry and online content communities and websites into their classrooms. Each chapter offers concrete teaching examples and practical suggestions to help make literacy relevant to students' content area learning. Author Sharon Kane demonstrates how relevant reading, writing, speaking, listening and visual learning activities can improve learning in content area subjects and at the same time help readers meet national content knowledge standards and benchmarks.
