and cultural hardships Combining an innovative mix of traditional chapters autoethnography case studies and dialogue within an intercultural framework the handbook focuses on the future of media education and provides a deeper understanding of the challenges and affordances of media education as we move forward Topics range from fighting disinformation how vulnerable communities coped with disadvantages using media transforming educational TV or YouTube to reach larger audiences supporting students wellbeing through various online strategies examining early childhood parents and media mentoring using digital tools reflecting on educators intersectionality on video platforms youth produced media to fight injustice teaching remotely and providing low tech solutions to address the digital divide search for solutions collaboratively using social media and many more Offering a unique and broad multicultural perspective on how we can learn from the challenges of addressing varied pedagogical issues that have arisen in the context of the pandemic this handbook will allow researchers educators practitioners institution leaders and graduate students to explore how media education evolved during 2020 and 2021 and how these experiences can shape the future direction of media education

Innovations and Challenges in Digital Literacies Rodney H. Jones, 2025-09-29 Innovations and Challenges in Digital Literacies questions whether the current theoretical frameworks and pedagogical practices around digital literacies are sufficient to confront the technological social and political crises around digital media that we are experiencing today Drawing on extensive research in digital literacies discourse analysis and sociotechnical systems Jones reimagines digital literacies not simply as skills for making meaning and navigating information but as a more holistic project of figuring out how to fix what is broken about the internet and our broader societies The book focuses on seven key sites of repair action attention affect affinity visibility truth and humanity each site offering insights into how agency emotions relationships knowledge and intelligence emerge through our entanglements with digital technologies The text aims to provoke debate about how we define digital literacies in an age of political polarisation and rapid technological change It provides powerful tools for teaching learning and living more ethically with digital media With this book Jones invites readers to see themselves not just as users of digital technology but as fixers of broken systems and caretakers of our increasingly fragile world This approach provides a framework for educators students and researchers to collaboratively develop practical strategies to challenge the logics of technological and social systems cultivating new literacies for an age of online misinformation algorithmic governance and generative AI Open Access for this book was funded by the University of Reading UK The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license *De Gruyter Handbook of Digital Cultures* Grant Bollmer, Katherine Guinness, Yiğit Soncul, 2025-09-22 As Digital Cultures becomes the dominant term used by many across a variety of intellectual fields to describe the social aesthetic and political impact of digital media it is necessary to provide a reference volume that specifies and defines the bounds of scholarly debates and curricular outlines for an otherwise

amorphous interdisciplinary space This handbook provides a comprehensive reference for the varied methodologies historical frames and theoretical perspectives essential for the study of Digital Cultures today In outlining these foundations it serves as a practical guide for educators and students into the broad range of perspectives grouped together for the critical historical and social scientific study of digital media It also looks into the future and outlines an agenda for future research by examining not only the origins of the concept of Digital Culture but emerging topics and themes still in development such as the relation between digital technology and climate change artificial intelligence and knowledge sensation and aesthetics and the rise of new infrastructures reinventing not only the built environment but the boundaries of nations and sovereignty
