The Origins and Continuity of Chinese Sociology Tiankui Jing, 2022-11-14 This book examines the origins and basic

concepts of sociology in China and traces the discipline's evolutionary trajectory. Building on the premise that qunxue, which goes back to Xunzi, is essentially the Chinese antecedent of modern Western sociology, contributors try to show the distinctive ways qunxue addresses a wide range of both foundational and practical issues related to society using its own set of conceptual, analytical, and methodological apparatus. The book argues that the rise of Chinese sociology will depend crucially on whether the rich heritage of traditional Chinese sociology can be fully appreciated and integrated with the Western tradition of learning. Following two preliminary chapters laying out qunxue's basic parameters, the four remaining chapters focus on its four primary concerns: cultivation of the self, xiushen (self-cultivation), regulation of the family, qijia (family governance), governance of the state, zhiguo (governing the state), and realization of universal peace, pingtianxia.

The Water God's Temple of the Guangsheng Monastery, Anning Jing, 2021-10-01. An investigation of the myth, history, inscriptions, architecture, sculpture, painting, iconological program, festival rituals, and theater of the only known intact ancient dragon king temple in China.

Widows: The Middle East, Asia, and the Pacific, Helena Znaniecka Lopata, 1987. What happens when the husband dies depends on the society, on the location of the widow in urban, rural, or class terms, and on the widow's own personal resources. In some societies the woman is totally dependent upon a grown son and cannot remarry; in others, such as that in the United States, she is more dependent upon her own resources and wishes. For some, widowhood results in a great loss of status; for others, it can mean loneliness and social isolation. Yet widowhood can mean greater social freedom for some women, a blooming of personality. Even grief is experienced in various ways and degrees. Thus, there is no such thing as a widow type; only a great heterogeneity in widowhood, as in wifehood. Volume I analyzes the support systems and life styles of widows in Australia, the Philippines, Korea, Iran, China, a Pacific island, India, Turkey, and Israel. Volume II, North America, examines two communities in Canada, a Florida retirement community, and communities in several other locations, as well as the relative situations of homeowners, blacks, and poor ethnic populations.
