Pecore, Franklin S. Allaire, 2020-08-01 Curriculum and Teaching Dialogue is a peer reviewed journal sponsored by the American Association for Teaching and Curriculum The purpose of the journal is to promote the scholarly study of teaching and curriculum The aim is to provide readers with knowledge and strategies of teaching and curriculum that can be used in educational settings The journal is published annually in two volumes and includes traditional research papers conceptual essays as well as research outtakes and book reviews Publication in CTD is always free to authors **Toward a Grammar of Curriculum Practice** Edmund C. Short, 2023-07-01 Curriculum planning can be conceptualized in various ways and curriculum planners necessarily must adopt a particular approach in order to facilitate their thinking and decision making However the history of curriculum planning suggests that existing conceptualizations are sometimes confusing imprecise or not as helpful as they might be There is a need for a new conceptualization that overcomes the limitations of these earlier conceptions Through conceptual analysis and concept development the author presents curriculum planning as a form of educational practice distinct from other practices such as teaching administration and policy making Short s grammar of curriculum practice describes a set of key concepts and the meaningful relationships among them that define the essential elements of curriculum and of curriculum planning *Professional Learning Communities* Louise Stoll, Karen Seashore Louis, 2007-03-16 All who are interested and concerned about educational reform and the improvement of schools will find this book a must read It stimulates it challenges and it informs such that the reader is most surely enriched by its plenitude Dr Shirley Hord Scholar Emerita At last we have a book of international cases to add to the literature on networks Policymakers and practitioners alike will find the reasons why networks are fast becoming the reform organizations of choice The book elevates network understanding to a new level Ann Lieberman Senior Scholar at the Carnegie Foundation for the Advancement of Teaching What is a professional learning community What are the key challenges facing these communities and how might they be resolved Is it time to extend our thinking about professional learning communities There is great interest internationally in the potential of professional learning communities for enhancing educational reform efforts and sustaining improvement This international collection expands perceptions and understanding of professional learning

communities as well as highlighting frequently neglected complexities and challenges Drawing on research each chapter offers a deeper understanding of topics such as distributed leadership dialogue organisational memory trust self assessment and inquiry and purpose linked to learning The last section of the book focuses upon three of the most challenging dilemmas that face developing professional learning communities developing professional learning communities in secondary school building social capital and sustaining professional learning communities The authors provide pointers on why these challenges exist offering rays of hope for ways forward Professional Learning Communities is key international reading for education professionals school practitioners policymakers academics and research students It is a must read for anyone interested in building capacity for sustainable learning and the ability to harness your community as a resource for change

A Casebook of Decolonizing Pedagogical Practices for Second Language Teacher Education Amy B. Gooden, 2024-09-23 Authentic practice for promoting equitable learning environments for all students *Modern Curriculum for Gifted and Advanced Academic Students* Todd A. Kettler, 2021-09-03 Modern Curriculum for Gifted and Advanced Academic Students addresses the need for advanced curriculum design in an age of national standards and 21st century learning innovations The text and its authors work from the assumption that the most advanced learners need a qualitatively different design of learning experiences in order to develop their potential into outstanding achievement answering the question How should we design learning experiences for our most advanced academic students in the foundational curriculum areas This book provides the most contemporary thinking about how to design in depth courses of study in the foundational curriculum areas with a high degree of complexity and advanced content The book includes chapters articulating specific design components like creative thinking critical thinking and authentic research but also subject specific chapters in mathematics language arts science and social studies to demonstrate application of those design components Resources in Education , 1998

International Handbook of Leadership for Learning Tony Townsend, John MacBeath, 2011-07-10 The International Handbook of Leadership for Learning brings together chapters by distinguished authors from thirty one countries in nine different regions of the world The handbook contains nine sections that provide regional overviews a consideration of theoretical and contextual aspects system and policy approaches that promote leadership for learning with a focus on educating school leaders for learning and the role of the leader in supporting learning It also considers the challenge of educating current leaders for this new perspective and how leaders themselves can develop leadership for learning in others and in their organisations especially in diverse contexts and situations The final chapter considers what we now know about leadership for learning and looks at ways this might be further improved in the future The book provides the reader with an understanding of the rich contextual nature of learning in schools and the role of school leaders and leadership development in promoting this It concludes that the preposition for between the two readily known and understood terms of leadership and learning changes everything as it foregrounds learning and complexifies rather than simplifies what that word may mean

Whereas common terms such as instructional leadership reduce learning to outcomes leadership for learning embraces a much wider developmental view of learning Studies in School Improvement Wayne K. Hoy, Michael DiPaola, 2009-04-01

Studies in School Improvement is the eighth volume in a series on research and theory in school administration dedicated to advancing our understanding of schools through empirical study and theoretical analysis This selection of readings highlights a number of important factors in the stimulation and implementation of school improvement including transformational leadership change perspectives of teachers principals and the community strategies for instructional change learning environments and school culture dropout prevention professionalism trust relations between the teachers and the board as well as trust between students and teachers and admission decisions for educational leadership programs In addition a number of new reliable and valid measures are developed and presented for the first time instruments to assess 1 change perspectives of the faculty 2 professionalism of teachers and 3 trust relations between students and teachers These tools are valuable aids for both researchers and practitioners in their quest to understand and implement successful school improvement projects An Analysis of Curriculum Decision Making in Arizona School Districts John Knapp Butts, 1992

International Handbook of Educational Policy Nina Bascia, Alister Cumming, Amanda Datnow, Kenneth Leithwood, David Livingstone, 2008-05-14 Nina Bascia Alister Cumming Amanda Datnow Kenneth Leithwood and David Livingstone This Handbook presents contemporary and emergent trends in educational policy research in over fifty chapters written by nearly ninety leading researchers from a number of countries It is organized into five broad sections which capture many of the current dominant educational policy foci and at the same time situate current understandings historically in terms of both how they are conceptualized and in terms of past policy practice The chapters themselves are empirically grounded providing illustrations of the conceptual implications contained within them as well as allowing for comparisons across them The serenity within chapters with respect to jurisdictional particularities and contrasts allows readers to consider not only a range of approaches to policy analysis but also the ways in which policies and policy ideas play out in different times and places The sections move from a focus on prevailing policy tendencies through increasingly critical and outsider perspectives on policy They address in turn the contemporary strategic emphasis on large scale reform substantive emphases at several levels on leadership and governance improving teacher quality and conceptualizing learning in various domains around the notion of literacies and concluding finally with a contrasting topic workplace learning which has had less policy attention and thus allows readers to consider both the advantages and disadvantages of learning and teaching under the bright gaze of policy
