homelessness assistance services To that end Congress further charged HUD with collecting and analyzing HMIS data from a representative sample of communities in order to understand the nature and extent of homelessness across the nation

The Annual Homeless Assessment Report to Congress ,2007 Veterans and Homelessness , Permanent Supportive Housing National Academies of Sciences, Engineering, and Medicine,Health and Medicine Division,Board on Population Health and Public Health Practice,Policy and Global Affairs,Science and Technology for Sustainability Program,Committee on an Evaluation of Permanent Supportive Housing Programs for Homeless Individuals,2018-08-11

Chronic homelessness is a highly complex social problem of national importance The problem has elicited a variety of societal and public policy responses over the years concomitant with fluctuations in the economy and changes in the demographics of and attitudes toward poor and disenfranchised citizens In recent decades federal agencies nonprofit organizations and the philanthropic community have worked hard to develop and implement programs to solve the challenges of homelessness and progress has been made However much more remains to be done Importantly the results of various efforts and especially the efforts to reduce homelessness among veterans in recent years have shown that the problem of homelessness can be successfully addressed Although a number of programs have been developed to meet the needs of persons experiencing homelessness this report focuses on one particular type of intervention permanent supportive housing PSH Permanent Supportive Housing focuses on the impact of PSH on health care outcomes and its cost effectiveness The report also addresses policy and program barriers that affect the ability to bring the PSH and other housing models to scale to address housing and health care needs Beyond Homeless Mary L. G. Theroux,Lawrence J. McQuillan,Adam B. Summers,2025-10-28 Entire neighborhoods in cities across the United States have become open air asylums drug markets and impoverished wastelands where death misery crime addiction encampments fires disease and even human waste aren t just tolerated but normalized How is this possible when billions of taxpayer dollars have been funneled into homelessness initiatives such as Housing First The truth is that the money poured into this issue from taxpayers non profits and private charities alike has mostly made homelessness worse overall And governments failures haven t just wasted taxpayer dollars it has cost lives and undermined human dignity This isn t just incompetence It s immoral and unjust And it must end In Beyond Homeless Good Intentions Bad Outcomes Transformative Solutions Mary L G Theroux Lawrence J McQuillan Adam B Summers and other scholars present a better approach rooted in proven solutions This groundbreaking new book based on years of research is exactly what s needed to address the crisis With forewords from acclaimed addiction medicine specialist and TV host Dr Drew Pinsky and licensed master social worker Scott Ackerson the book gathers experts on every aspect of homelessness to present a stirring condemnation of the status quo and an inspiring vision for the future Drawing on real life stories cutting edge research and alternative programs with metric driven successes they make the case for individualized holistic interventions that actually work Discover How Housing First initiatives have become governments default response

to homelessness and why they fail Why permanent supportive housing PSH isn't just ineffective but dangerous How political interests fuel the homelessness industrial complex resulting in ever increasing spending while falling further behind The inspiring success of real alternatives such as Haven for Hope in Texas and Union Rescue Mission in Los Angeles Policy changes that would truly ease the crisis for the unhoused and housed alike without breaking the bank The difference between responsible and irresponsible forms of harm reduction And much much more At the heart of this crisis are real people those experiencing homelessness and the residents who see their neighborhoods crumble Both have paid a high price for failed policies Both deserve better The good news We can do better Beyond Homeless Good Intentions Bad Outcomes Transformative Solutions shows us how

Empowerment as Ceremony William Epstein, 2017-07-28 Many people in the United States are poor lead marginal lives and need jobs as well as basic services such as education medical care and housing Multitudes in other parts of the world in addition to being poor are jailed tortured and killed for being members of the wrong ethnic group or expressing political opinions Those who argue for empowerment claim it is a magic bullet It can liberate the oppressed largely through self organization self motivation self invention and even self clarity William M Epstein sees contemporary empowerment practice in the United States as a civic church of national values one better in performing its ceremonial role than god based houses of worship By itself empowerment is not worth the effort of commentary since it achieves none of its goals and has not even generated a respectable critical literature But Epstein argues that empowerment practice and American social welfare both embody prescriptive cultural preferences Like art and music empowerment opens windows into deeper social meaning The social sciences have carved out roles for themselves by looking for simple remedies ones that are inexpensive and compatible with contemporary social arrangements Epstein shows that those in social work practices have not only deluded themselves into thinking that these services have real instrumental
