children as they see fit and that at home learning is superior to the public system Detractors claim that home schooled children are deprived of social interaction and the broad based education provided by the system Neither side wants to cede ground making the issue of home schooling an integral part of a wider national debate on education In this book the specific topic of home schooling is presented from all relevant sides to give a complete picture of the present status of the issue and its potential for future resolution Following this overview is a thorough and carefully selected bibliography of literature about home schooling from all viewpoints Easy access to this important resource is then provided via author title and subject indexes
