how these individual conceptualizations about territory don't always fit the Western-centric division of the world into states and territories thus revealing alternative or subordinated forms and scales of territory. She also argues that disproportionate attention to refugee crises in the Global North has diverted focus from other parts of the world that bear the responsibility of protecting the majority of the world's refugees. By focusing on Jordan, a Global South state that hosts the world's second largest number of refugees per capita, this book provides insights to consider alternate ways to handle the situation of refugees elsewhere. In the process, Culcasi brings the reader into refugees' diverse realities through their own words, inherently arguing against the tendency of many people in the Global North to see refugees as aberrant, burdensome, or threatening.
