Abstract: This is a preliminary study of the effects of a 10-week training program on the performance of a group of 10 young athletes. The program was designed to improve the athletes' performance in a 100-m sprint. The results of the study show that the athletes' performance improved significantly after the training program. The mean time for the 100-m sprint decreased from 15.5 seconds to 14.2 seconds. The standard deviation of the times decreased from 0.8 seconds to 0.5 seconds. The results of the study suggest that the training program was effective in improving the athletes' performance.

Abstract: This research is a qualitative study that will investigate teachers' perceptions of students' self-esteem and students' self-esteem and self-esteem in the classroom.
