Investing Manual:

The Complete Direct Investing Handbook Kirby Rosplock, 2017-05-15 The practical guide to direct investing strategies and best practices The Complete Direct Investing Handbook provides comprehensive guidelines principles and practical perspectives on this increasingly attractive private equity investment strategy Interviews with leading family office investors qualified private equity buyers and top direct investing advisors provide essential insights and attention to the nuanced processes of direct investing The book is a hands on resource for family offices and those investors interested in generating returns through private company ownership to be more effective in creating returns in a complex market Direct investing best practices are explored in depth with guidance on strategy and the evaluation and assessment of various investment opportunities The process begins with a codified and specific investment goal and a robust strategy tailored to the investor's individual needs Useful insight on narrowing the field helps investors select the appropriate opportunities to meet their investment goals and practical tools help streamline the process of capital deployment and in turn providing more opportunities to achieve desired returns Despite the growing interest in direct investing there is little public information available to investors and there is a lack of transparency into practical standards This book bridges the gap between strategy and execution with comprehensive guidance and real world insights Define and craft a focused investment thesis and appropriate timeline specific to your needs Identify the right type size duration and risk profile aligned to your investment objectives Gain perspective on real world direct investing and a deeper understanding of the risks and rewards Better understand best practices and institutional investment rigor to develop bespoke processes and policies that create better outcomes for independent investors Historically extraordinary wealth has been created through equity in privately held enterprise Today family offices and direct investors are looking more and more toward large capital deployment in early stage and growth oriented private equity investments but are constrained by a lack of informed established practices The Complete Direct Investing Handbook provides the much needed guidance and tools that can improve direct investment outcomes

water management to benefit smallholder farmers in Ethiopia. AgWater Solutions Project country synthesis report Evans, Alexandra E. V., Giordano, Meredith, Clayton, Terry (Eds.), 2012-02-11 The AgWater Solutions Project carried out between 2009 and 2012 focused on resolving water issues faced by smallholder farmers The project examined existing Agricultural Water Management AWM solutions together with factors that influence their adoption and scaling up The project aimed to identify investment opportunities in AWM that have high potential to improve the incomes and food security of poor farmers The work was undertaken in the African countries of Burkina Faso Ethiopia Ghana Tanzania and Zambia and in the Indian States of Madhya Pradesh and West Bengal This Working Paper series summarizes results and recommendations from the research carried out in each of these countries and states

Manual Well Drilling Investment Opportunity in Ethiopia Elizabeth Weight, Robert Yoder, Andrew Keller, 2013-10-09 Increasing female and male farmers access to groundwater can contribute to increased incomes improved food security and improved access to water for livestock and domestic needs In many contexts private sector manual well drilling is a reliable and affordable means to access shallow groundwater but it is not widely available in Ethiopia Data information and mapping on pilot manual well drilling efforts in selected areas of Ethiopia indicated that the technique provided affordable access to shallow groundwater for farmers and demonstrated high demand among farmers for manually drilled wells as well as profitability for drilling businesses The authors of this paper suggest that investments in creating a spatial database of hydrogeologic suitability domains investments in driller training and associated investments in accelerating the drilling industry could catalyze a manual well drilling industry and significantly improve smallholder farmers affordable access to shallow groundwater
