Sport Tourism Heather J. Gibson, 2013-09-13 The study of sport tourism is on the cusp of moving from a descriptive phase of research into an analytical phase Consequently many academics and graduate students are searching for theories upon which to ground their work This book draws upon theories and concepts from sociology and anthropology the socio cultural perspective sport and tourism studies and business studies One of the dangers of a new area of study is that the body of knowledge is built on a range of seemingly unrelated studies By grounding work in a theoretical perspective future work can be linked to and contribute to building a cohesive understanding of various aspects of sport tourism This book is an edited collection written by some of the top scholars working in a particular domain throughout the world providing a compendium of theories and concepts that can be used to frame research on various aspects of sport tourism This volume was previously published as a special issue of the journal Sport in Society

Sexual Futures, Queer Gestures, and Other Latina Longings Juana María Rodríguez, 2014-07-25 Winner of the Alan Bray Memorial Book Prize presented by the GL Q Caucus of the Modern Language Association Finalist for the 2015 LGBT Studies Award presented by the Lambda Literary Foundation Sexual Futures Queer Gestures and Other Latina Longings proposes a theory of sexual politics that works in the interstices between radical queer desires and the urgency of transforming public policy between utopian longings and everyday failures Considering the ways in which bodily movement is assigned cultural meaning Juana Mar a Rodr guez takes the stereotypes of the hyperbolically gestural queer Latina femme body as a starting point from which to discuss how gestures and forms of embodiment inform sexual pleasures and practices in the social realm Centered on the sexuality of racialized queer female subjects the book's varied archive which includes burlesque border crossings daddy play pornography sodomy laws and sovereignty claims seeks to bring to the fore alternative sexual practices and machinations

that exist outside the sightlines of mainstream cosmopolitan gay male culture Situating articulations of sexual subjectivity between the interpretive poles of law and performance Rodr guez argues that forms of agency continually mediate among these various structures of legibility the rigid confines of the law and the imaginative possibilities of the performative She reads the strategies of Puerto Rican activists working toward self determination alongside sexual performances on stage in commercial pornography in multi media installations on the dance floor and in the bedroom Rodr guez examines not only how projections of racialized sex erupt onto various discursive mediums but also how the confluence of racial and gendered anxieties seeps into the gestures and utterances of sexual acts kinship structures and activist practices Ultimately Sexual Futures Queer Gestures and Other Latina Longings reveals in lyrical style and explicit detail how sex has been deployed in contemporary queer communities in order to radically reconceptualize sexual politics *Wall Street Journal Index* ,1975

Zombifying a Nation Toni Pressley-Sanon,2016-08-02 The figure of the zombie that entered the popular imagination with the publication of William Seabrook s *The Magic Island* 1929 during the American occupation of Haiti still holds cultural currency around the world This book calls for a rethinking of zombies in a sociopolitical context through the examination of several films including *White Zombie* 1932 *The Love Wanga* 1935 *I Walked with a Zombie* 1943 and *The Serpent and the Rainbow* 1988 A 21st century film from Haiti *Zombi candidat a la presidence ou les amours d un zombi* is also examined A reading of *Heading South* 2005 a film about the female tourist industry in the Caribbean explores zombification as a consumptive process driven by capitalism **Wall Street Journal** ,1957 **Tourist Destinations** Douglas G. Pearce,2020-11-23 Destinations are a central feature of tourism and the focus of much tourism research Destinations have been studied from diverse perspectives using multiple concepts and a range of approaches As a result destination research today has become increasingly fragmented as studies have become more specialized There is a need for a more integrated approach one which systematically draws together these different research threads to provide a comprehensive and coherent picture and a fuller understanding of destinations their structure and how they function This book provides such a synthesis by critically reviewing a wide range of international research and incorporating in one volume many different facets of destinations from studies which have appeared in related but often divergent literatures Conceptual and methodological issues are illustrated with empirical examples from Europe North and South America Asia and Oceania
