How Should I Pronounce? Or, The Principles of the Art of Correct Pronunciation William Henry Pinkney Phyfe, 1885 *Error Analysis* Bernd Spillner, 1991

Errors are information. In contrastive linguistics they are thought to be caused by unconscious transfer of mother tongue structures to the system of the target language and give information about both systems. In the interlanguage hypothesis of second language acquisition errors are indicative of the different intermediate learning levels and are useful pedagogical feedback. In both cases error analysis is an essential methodological tool for diagnosis and evaluation of the language acquisition process. Errors too give information in psychoanalysis e.g. the Freudian slip in language universal research and in other fields of linguistics such as linguistic change. This bibliography is intended to stimulate study into cross language cross discipline and cross theoretical as well as for language universal use of the numerous but sometimes hard to come by error analysis studies. 5398 titles covering the period 1578 up to 1990 with work in more than 144 languages and language families are cited cross referenced and described. The subject areas covered are numerous. For example Theoretical Linguistics Linguistic Typology Cognitive Linguistics Historical Linguistics Language Change Applied Linguistics e.g. Speech Disorders Translation Mother Tongue Acquisition Foreign Language Learning Negative Transfer Intralingual and Interlingual Errors Psychoanalysis Slips of the Tongue Typography Shorthand Clinical Linguistics and Speech Pathology Reading Research Automatic Error Detection Contact Linguistics Code switching Interference etc.
