Spours,2003-12-16 Since its introduction over 50 years ago the A level has been a constant subject of debate in schools HE and government Sometimes hailed as a gold standard there is now intense speculation about the future of the A level in particular but also about post 14 qualifications in general The furore about quality and standards which accompanies each year s A level results has become an annual fixture in the UK press calendar With the introduction of Curriculum 2000 and an increasing number of calls for Baccalaureate style examinations vocational qualifications and more the need for serious debate and change in this field is clear Based on primary research by two of the leading commentators on the qualifications this book is a wide ranging and critical view of the fundamental approaches of the education system in Britain today With government action on this subject looking inevitable this will be a challenging and important book for anyone interested in this debate Problem-solving and Thinking Skills Resources for Able and Talented Children Barry Teare,2006-07-06 This

treasure trove of resources is divided into ten themed sections each preceded by an outline giving the key principles links with curriculum guidelines and an explanation about the importance of the particular skill Charts at the beginning of the book summarize curriculum links and skills involved Each photocopiable activity is accompanied by teachers notes and fully explained solutions are given where appropriate **The Electrical Journal** ,1894 Journal of the Society of Dyers and
