Routledge Handbook of National and Regional Ocean Policies Biliana Cicin-Sain, David

Vanderzwaag, Miriam C. Balgos, 2015-05-15 This comprehensive handbook prepared by leading ocean policy academics and practitioners from around the world presents in depth analyses of the experiences of fifteen developed and developing nations and four key regions of the world that have taken concrete steps toward cross cutting and integrated national and regional ocean policy All chapters follow a common framework for policy analysis While most coastal nations of the world

already have a variety of sectoral policies in place to manage different uses of the ocean such as shipping fishing oil and gas development in the last two decades the coastal nations covered in the book have undertaken concerted efforts to articulate and implement an integrated ecosystem based vision for the governance of ocean areas under their jurisdiction This includes goals and procedures to harmonize existing uses and laws to foster sustainable development of ocean areas to protect biodiversity and vulnerable resources and ecosystems and to coordinate the actions of the many government agencies that are typically involved in oceans affairs The book highlights the serious conflicts of use in most national ocean zones and the varying attempts by nations to follow the prescriptions emanating from the 1982 UN Law of the Sea Convention and the outcomes of the 1992 2002 and 2012 sustainable development summits The interrelationship among uses and processes in the coast and ocean requires that ocean governance be integrated precautionary and anticipatory Overall the book provides a definitive state of the art review and analysis of national and regional ocean policies around the world **The Stationery**

Office Annual Catalogue Stationery Office (Great Britain),2014 *Routledge Handbook of Maritime Regulation and Enforcement* Robin Warner,Stuart Kaye,2015-08-27 With advances in technology and maritime transport human use of the ocean now extends beyond the traditional activities of navigation and fishing Emerging activities such as bioprospecting deep seabed mineral and hydrocarbon exploration and exploitation offshore renewable energy developments and marine scientific probes of deep sea areas challenge the applicability of maritime law and policy in new ways This handbook examines current regulatory and enforcement instruments and mechanisms for different sectors of maritime activity Covering various jurisdictions its specially commissioned chapters are authored by some of the world s foremost authorities on maritime law and offer unique perspectives on maritime law policy and practice This highly relevant collection is organised into four parts International Law Considerations in Maritime Regulation and Enforcement Role of States and other International Actors in Maritime Regulation and Enforcement Regulation and Enforcement in Different Maritime Sectors Current Issues and Future Challenges This comprehensive reference work will be of interest to scholars and students of maritime law practitioners and non lawyers interested in the regulation of offshore areas as well as policy makers **Maritime Gray Zone Operations**

Andrew S Erickson,2022-10-21 This book addresses the issues raised by Chinese and North Korean maritime gray zone activities in the Indo Asia Pacific region For years China has been harassing its neighbors in South China Sea and East China Sea employing both coast guard and maritime militia forces in the name of safeguarding Chinese sovereignty This behavior is frequently characterized as constituting gray zone activity As the term suggests this refers to a state of conflict that falls between peace and war Interestingly the Yellow Sea which is geographically much closer to China than South China Sea or East China Sea has been comparatively quiet However there is a danger that the PRC has the capability to replicate its gray zone activities in this area Worse North Korea has also been engaging in carefully calibrated provocations there This book addresses pressing questions about these activities and offers 1 a conceptual framework to understand maritime gray zone

operations and Beijing and Pyongyang's approach with an unprecedented focus on the Yellow Sea 2 a comprehensive fully updated fleet force structure for the PRC's Coast Guard together with projections regarding how the Coast Guard is likely to develop in the future 3 an extensive organizational analysis of the PRC's Maritime Militia that surveys the many units relevant to Yellow Sea operations some revealed publicly for the first time and 4 a detailed assessment of North Korean maritime gray zone activities This book will be of great interest to students of naval strategy maritime security Asian politics and international security
