Vicky Katsoni, Carlos Costa

2014 Tourism Pat Grade 11 Memo:

Thanatourism and Cinematic Representations of Risk Rodanthi Tzanelli, 2016-04-14 In today's world the need to eliminate natural and human made disasters has been at the forefront of national and international socio political agendas. The management of risks such as terrorism, labour strikes, protests and environmental degradation has become pivotal for countries that depend on their economy's tourist sector. Indeed there is fear that the end of tourism might be nigh due to inadequate institutional foresight. Yet in designing relevant policies to tackle this, arts such as that of filmmaking have yet to receive due consideration. This book adopts an unorthodox approach to debates about the end of tourism. Through twenty first century cinematic narratives of symbolically interconnected risks it considers how art envisages the future of humanity's well being. These risks include migration as an infectious disease, alien incursions as racialized labour, mobilities, cyborg rebellion as the fear of post colonial otherness and zombie anthropophagy as the replacement of rooted identities by nomadic lifestyles. Such filmic scenarios articulate the futuristic survival of community as the triumph of the technological human over otherness and provide a means to debate societal risks that weave identity politics into unequal mobilities. This book will appeal to researchers and students interested in mobilities theory, tourism and travel theory, film studies and aesthetics, globalisation studies, race, labour and migration.

Innovation and Creativity in Tourism, Business and Social Sciences Vicky Katsoni, Carlos Costa, 2025-06-03 This book is the first volume of the proceedings of the 11th International Conference of the International Association of Cultural and Digital Tourism IACuDiT Focusing on Innovation and Creativity in Tourism Business and Social Sciences the conference was held from September 3 to 5 2024 in Naxos Greece. The book showcases the latest research on tourism business, technology and the social sciences and presents a critical academic discourse on ICT adoption in the social sciences, regional development, sustainability and tourism experience, smart and sustainable practices, innovations in museum interpretation and collections management, emerging and disruptive technologies, gaming, gamification and augmented reality and other topical aspects in business and the social sciences. The book discusses these digital transformation processes from various standpoints including its effect on the social sciences combined with specific forms of tourism. The impact of digitalization encourages the emergence of new digital products and services based on the principle of flexibility. The book focuses on the knowledge economy and the smart destinations concepts and highlights new modes of tourism management and development while further chapters address emerging technologies such as the Internet of Things, AI, big data and robotics in a range of tourism practices.

Congressional Record United States. Congress, 2009 The Congressional Record is the official record of the proceedings and debates of the United States Congress.
